"Time travel, UFOs, mysterious planets, stigmata, rock-throwing poltergeists, huge footprints, bizarre rains of fish and frogs-nearly a century after Charles Fort's Book of the Damned was originally published, the strange phenomenon presented in this book remains largely unexplained by modern science. Through painstaking research and a witty, sarcastic style, Fort captures the imagination while exposing the flaws of popular scientific explanations. Virtually all of his material was compiled and documented from reports published in reputable journals, newspapers and periodicals because he was an avid collector. Charles Fort was somewhat of a recluse who spent most of his spare time researching these strange events and collected these reports from publications sent to him from around the globe. This was the first of a series of books he created on unusual and unexplained events and to this day it remains the most popular. If you agree that truth is often stranger than fiction, then this book is for you"--Taken from Good Reads website.

Report to the Congress of the United States, April 1976: pt.1-4. Public hearings Contemporary Books

Arthritis v. 4 pt. 3

Teacher Librarian Beth McGuire provides librarians and teachers with reproducible activities to encourage students to think about, discuss and provide a purpose for reading current star reviewed and award winning literature while practicing their comprehension strategies. Activities reinforce comprehension of the material and include an extension activity for going beyond the text, allowing the students to practice their higher level thinking skills. Librarians and teachers can make copies of the activities to directly incorporate into their lessons in the content areas. Titles included are organized by level and by curricular area. Usable for grades 6-8.
