Teacher Librarian Beth
McGuire provides librarians
and teachers with
reproducible activities to
encourage students to think
about, discuss and provide a
purpose for reading current

star reviewed and award
winning literature while
practicing their
comprehension strategies.
Activities reinforce
comprehension of the material
and include an extension
activity for going beyond the
text, allowing the students
to practice their higher
level thinking skills.
Librarians and teachers can
make copies of the activities
to directly incorporate into
their lessons in the content
areas. Titles included are
organized by level and by

The Postal Record Doubleday Books "Time travel, UFOs, mysterious planets, stigmata, rock-throwing poltergeists, huge

footprints, bizarre rains of fish and frogs- nearly a century after Charles Fort's Book of the Damned was originally published, the strange phenomenon presented in this book remains largely unexplained by modern science. Through painstaking research and a witty, sarcastic style, Fort captures the imagination while exposing the flaws of popular scientific explanations. Virtually all of his material was compiled and documented from reports published in reputable journals, newspapers and periodicals because he was an avid collector. Charles Fort was somewhat of a recluse who spent most of his spare time researching these strange events and collected these reports from publications sent to him from around the globe. This was the first of a series of books he created on unusual and unexplained events and to this day it remains the most popular. If you agree that truth is often stranger than fiction, then this book is for you"-- Taken from Good Reads website.
