The Honda K-Series engine was introduced in 2001, replacing the B-Series as the engine of choice for Honda enthusiasts. These new K-Series engines are the most powerful stock Honda/Acura engines you can get. They featured new technology such as a roller rocker valvetrain, better flowing heads, and advanced variable cam timing technology that made these engines suddenly the thing to have. And that's where the engine swappers come in. In Honda K-Series Engine Swaps, author Aaron Bonk guides you through all the details, facts, and figures you will need to complete a successful K-Series swap into your older chassis. All the different engine variants are covered, as well as interchangeability, compatibility, which accessories work, wiring and controls operation, drivetrain considerations, and more. While you can still modify your existing B-Series, dollar for dollar, you can't make more power than you can with a Honda K-Series engine. If you have an older chassis and are looking for a serious injection of power and technology, swapping a K-Series engine is a great option. Honda K-Series Engine Swaps will tell you everything you need to know.

coming of age while representing Hurst, through her annual appearances at America's top automotive and racing events, Linda continues to engage fans, drawing long lines whenever she makes an appearance. At her peak, Linda attended more than 100 events annually, year after year, and she still attends more than 25 events each year. The only entity that's probably seen as many events as Linda is Goodyear! For the first time ever, Linda Vaughn allows her fans a behind-the-scenes look at her career in motorsports and promotion through her personal photographic archive and other photos. Through captions, Linda tells the story of individual images recounting countless stories from her photographic memory, with no detail left unshared. She recounts events with racing personalities and automotive icons from George Hurst to Richard Petty to Mario Andretti to Don Garlits. Nobody is left out as Linda tells stories about the photos chronicling her career in Motorsports. Linda Vaughn: The First Lady of Motorsports is the most comprehensive gathering of imagery ever assembled on Linda Vaughn. Through her 50-plus years in Motorsports, Linda has lived it all, been everywhere, and met everyone. Whether you are simply a fan of Linda or a collector of Linda Vaughn memorabilia, this will be the premier piece in your collection!

Crawford's New Product Management 12e  
provides the management approach to teaching  
new products, with the perspective of  
marketing. Adopters of previous editions  
will notice that the format is slimmed down  
to 18 chapters. This streamlined  
presentation focuses on the topics that will  
be of most importance and interest to new  
product managers. Significant updates can be  
found throughout, and great pains have been  
taken to present the "best practices" of  
industry and relevancy to readers. Past  
adopters of New Products Management will  
notice major changes in this edition. While  
there are some changes in virtually every  
chapter, some of the most substantial  
changes are as follows: 1. We have made major  
additions and updates to the cases to  
provide more plentiful and more current  
examples. We retired several cases from the  
previous edition, wrote many new cases, and  
thoroughly updated many others. New cases  
for this edition include: Oculus Rift,

---

Adidas Parley sustainable running shoes, Google Glass, Indiegogo, Tesla, Chipotle, Chick-fil-A, Corporate Social Responsibility at Starbucks, and many others. As always, we aim to offer a mix of high tech products and consumer products and services in the set of cases. 2. In addition, we have substantially updated examples throughout the text wherever possible. We try to make use of illustrative examples that will resonate with today's students wherever possible. Of course, we welcome the reader's comments and suggestions for improvement. 3. There continues to be much new research in new products, and we have tried to stay current on all of these topics. Readers will notice new or expanded coverage of portfolio management, value curve creation, the TRIZ method, crowd-sourcing, crowdfunding, observational research, open innovation, organizational structure, 3D modeling, beta testing, sustainable product development, and frugal innovation, among other topics. 4. We continue the practice of referencing Web sites of interest throughout the text, and we have added the web addresses for several useful YouTube videos and other resources.

The first book of its kind, *How to Rebuild the Honda B-Series Engine* shows exactly how to rebuild the ever-popular Honda B-series engine. The book explains variations between the different B-series designations and elaborates upon the features that make this engine family such a tremendous and reliable design. Honda B-series engines are some of the most popular for enthusiasts to swap, and they came in many popular Honda and Acura models over the years, including the Civic, Integra, Accord, Prelude, CRX, del Sol, and even the CR-V. In this special Workbench book, author Jason Siu uses more than 600 photos, charts, and illustrations to give simple step-by-step instructions on disassembly, cleaning, machining tips, pre-assembly fitting, and final assembly. This book gives considerations for both stock and performance rebuilds. It also guides you through both the easy and tricky procedures, showing you how to rebuild your engine and ensure it is working perfectly. Dealing with considerations for all B-series engines-foreign and domestic, VTEC and non-VTEC-the book also illustrates many of the wildly vast performance components, accessories, and upgrades available for B-series engines. As with all Workbench titles, this book details and highlights special components, tools, chemicals, and other accessories needed to get the job done right, the first time. Appendices are packed full of valuable reference information, and the book includes a Work-Along-Sheet to help you record vital statistics and

measurements along the way. You'll even find tips that will help you save money without compromising top-notch results.

This anthology revives two classic science fiction stories from the 19th century. The first tale, "The Moon Hoax," is inspired by the actual fabrication that took place in 1835. Detailing a series of six articles that were published in the New York Sun regarding the supposed discovery of life and even civilization on the Moon, this fascinating tale defines the power of myth, depicting how the newspaper's readers were held in thrall for five days by the fanciful claims falsely attributed to famed astronomer Sir John Herschel. The second narrative, "The Unparalleled Adventures of One Hans Pfaall," penned by legendary author Edgar Allan Poe, marks the first attempt in literature to describe a space flight with scientific plausibility.

Negotiation impacts every aspect of our lives, from the deals we strike on the job, to our relationships with family members and neighbors, to the transactions we make as customers. Yet most people do anything they can to avoid negotiating—it makes them uncomfortable, nervous, even frightened. This plague of negotiaphobia is what Don Hutson and George Lucas are here to remedy. Hutson and Lucas tell the tale of Jay Baxter, who sells more than anyone else in his company but finds himself in trouble because his profit margins are so slim—he's giving too much away to close the deal. Enter the One Minute Negotiator, who teaches him a three-step negotiating process that not only helps him make more profit per sale but can be applied anywhere, on the job or off. The key to the process is flexibility. Most books on negotiation preach one of two gospels: thou shalt collaborate or thou shalt compete. But no two negotiations are alike—one strategy cannot fit all. The One Minute Negotiator teaches you four viable strategies and shows how to choose the one best suited to the situation, your own inclinations, and the strategy being used by the other side. Besides the obvious

benefits, conquering negotiaphobia will reduce your stress level. You'll never walk away thinking about what you should have asked for or might have gotten. Instead, with the tools Hutson and Lucas provide, you can confidently and consistently guide any negotiation to the best possible conclusion.

Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a

Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.
