In this riveting critique of the Fleet Air Arm's policy across two world wars, former FAA Fighter Pilot Henry Adlam charts the course of its history from 1912 to 1945, logging the various milestones, mistakes and successes that characterized the service history of the Fleet Air Arm. Offering criticism on the service hierarchies that made up the Fleet, backed up by his having served in six Carriers and flown from them in all five theaters of sea warfare during five years of the Second World War, Adlam presents a highly entertaining and potentially controversial study which is sure to appeal to a wide array of aviation enthusiasts. Adlam charts the catalogue of errors that blighted the history of the Naval Air Service, which followed the disastrous decision in April 1918 to transfer the whole of the Air Service of the Royal Navy to form the new RAF. The main and overriding criticism that the author finds with the Fleet Air Arm lies in the manner in which it was led. Adapting the oft-quoted "Lions led by Donkeys" description of the British Army, Adlam describes the activities of the Fleet Air Arm in the Second World War as the result of "Sea Eagles led by Penguins" practices, when experienced pilots were led into battle by senior members of the Navy who possessed little or no flying experience. This led to a whole host of disasters costing many lives amongst flight personnel. Adlam charts the errors that blighted the history of the Fleet Air

Arm and shows how its recovery and the triumphant turnaround of its fortunes were all the more remarkable.

Taking the reader on a journey from inception during First World War service, throughout all the many disasters and successes that followed between the Wars and on into the Second World War and beyond, this book offers engaging new insights and a degree of critical candor that set it apart from other Fleet Air Arm histories currently available on the market.

"Kung delivers a touching story enriched by its strong atmosphere," Publishers Weekly, Starred Review "There's much to admire in Kung's debut: vivid Hong Kong backgrounds, a sharp eye for conflicts of class and nationality, and the looming threat to the heroine's family," Kirkus Reviews "Kung finds a key plot element in the hidden lives of the thousands of Filipinas who come to Hong Kong as servants for affluent families and live almost like slaves," The Washington Post "It would be easy to assume that Hong Kong is populated solely by spies and incredibly rich people who made their fortunes off the backs of peasants. What distinguishes this book is a compelling sense of place. This is a Hong Kong readers don't come across very often and the author brings the city alive. It's an unusual debut," Chris Petrakos, The Chicago Tribune "This unusual Far East mystery is as notable for its portrayal of Hong Kong while being returned to Communist China as it is for its intimate study of maternal love. Kung proves an expert storyteller, adroitly probing Claire's psyche, imparting the Far East wisdom she gets from her close friend, a Scottish priest and above all, the maturation under stress of Claire's lover and father of her

son. The reader will discover the summoning of a poignant, almost visceral, response to the plight of Kung's besieged principals," Buffalo Evening News, Ed Kelly Foreign correspondent Claire Raymond finds herself uncomfortably sidelined at home on maternity leave. A neighbor's son, Petey, is found dead along the Midlevel district's May Road during the Christmas season only six months before the official handover of Hong Kong from Britain to China.
