Federal Register Industrial Press Inc.
2008 Outstanding Academic Title, Choice Magazine From dirt bikes and jet skis to weed wackers and snowblowers, machines powered by small gas engines have become a permanent—and loud—fixture in American culture. But fifty years of high-speed fun and pristine lawns have not come without cost. In the first comprehensive history of the small-bore engine and the technology it powers, Paul R. Josephson explores the political, environmental, and public health issues surrounding one of America's most dangerous pastimes. Each chapter tells the story of an ecosystem within the United States and the devices that wreak havoc on it—personal watercraft (PWCs) on inland lakes and rivers; all-terrain vehicles (ATVs) in deserts and forests; lawn mowers and leaf blowers in suburbia. In addition to environmental impacts, Josephson discusses the development and promotion of these technologies, the legal and regulatory efforts made to improve their safety and environmental soundness, and the role of owners' clubs in encouraging responsible operation. Synthesizing information from medical journals, recent environmental research, nongovernmental organizations, and manufacturers, Josephson's compelling history leads to one irrefutable conclusion: these machines cannot be operated without loss of life and loss of habitat.

Polaris ATVs 250-800cc, '98-'07 Haynes Manuals
One woman's solo journey to ride all seven continents on two wheelsWelsh girl Steph Jeavons ran away to see the world. She wanted to see the sunset from every angle. She wanted to see an orangutan and a baobab tree. She wanted to become the first person to circumnavigate the globe and ride a motorcycle on all seven continents - and to sing karaoke on the way.Steph's cravings for escapism manifest themselves in many ways throughout her life. The book begins in her late teens where she finds herself in prison by the age of twenty. She knows there is a whole world beyond that razor wire just calling out to be explored. Twenty years later, and armed only with a stern tone of voice she reserves for naughty dogs, drunk Turks, Iranian taxi drivers, semi-conscious British soldiers and Saudi truckers, she rides her trusty steed Rhonda the Honda solo around the world, to the highest, driest, wettest, hottest and coldest corners of the earth. This is a powerful and honest memoir written from the perspective of a liberated single woman taking on the world with a dogged determination to complete her mission at all costs.Home by Seven is told with honesty and wit and from a unique perspective.
