The Mafia is making a power play on US soil, smuggling in four shipping containers full of the finest Turkish heroin right under the Feds' noses. It's a shipment large enough to turn a generation into addicts and elevate the Cosa Nostra to new heights. This is a clear and present danger to the future of the nation – the only course for the President is to pick up a very special phone and to ask CURE to send in The Destroyer. The Destroyer is Remo Williams, an ex-cop who should be dead, but instead fights for a top secret government law-enforcement organisation. Trained in the esoteric martial art of Sinanju by his aged mentor, Chiun, Remo is America's last line of defence. Breathlessly action-packed and boasting a winning combination of thrills, humour and mysticism, the Destroyer is one of the bestselling series of all time.

Through an investigation of the body and its oppression by the church, the medical profession and the state, *Dangerous bodies* reveals the actual horrors lying beneath fictional horror in settings as diverse as the monastic community, slave plantation, operating theatre, Jewish ghetto and battlefield trench. It provides original readings of canonical Gothic literary and film texts including *The Castle of Otranto*, *The Monk*, *Frankenstein*, *Dracula* and *Nosferatu*. This collection of dangerous bodies is traced back to the effects of the English Reformation, Spanish Inquisition, French Revolution, Caribbean slavery, Victorian medical malpractice, European anti-Semitism and finally warfare. The endangered or dangerous body lies at the centre of the clash between victim and persecutor and has generated tales of terror and narratives of horror, which function to either salve, purge or dangerously perpetuate such oppositions.

This book takes a completely new look at the Anthroposophical Soul Calendar. It is about the deeper meaning of the fifty-two weekly verses, which has remained essentially unexplored in the last hundred years since the first edition by Rudolf Steiner. A dense veil of Isis was spread over them, of which is well known that no mortal person can lift it. Only the immortal, psycho-spiritual human being, who knows himself at home in the extrasensory, higher worlds, is capable of doing this. Only to him the weekly verses reveal themselves as a travel guide through these worlds and lift him up to ever higher spiritual-cosmic realms until he reaches the experience of God, from where he gradually descends again into a new life on Earth, enriched in spirit and fertilized in his soul. If the reader embarks on this journey, the spiritual archetype of the Soul

Calendar is ultimately unveiled to him and he achieves an extended understanding of Man and Christ. By many quotations from Rudolf Steiner's lectures and books, the author virtually lets Steiners himself elucidate the breathtaking depths of his mysterious weekly verses.
