Achieving Excellence Through Customer Service is now in its 15th Edition with updates through 2023. This book is often considered the bible of customer service. It will help you understand the power of

excellent customer service and identify an implementation plan. This book gives you detailed, step-by-step knowledge to establish a customer service strategy that will work for you and your organization. In 1979, long before customer service came into vogue, I designed a customer service training program that organizations could use to change the attitudes and behavior of employees. This was my ninth year in the consulting and training business. I saw organizations spend millions on advertising, trying to attract customers. But then they used baseball bats (figuratively) to drive them away. This was bizarre behavior, I felt. If these organizations would just use The Feelings learning system I developed in 1979 has been used by millions of people throughout the world. It is cost-effective and user-friendly, written to be understood by the employee participants, not just management and trainers. It has been updated many times. With COVID throughout the world, most organizations gave up on customer service across the world. It is worse today than in 1979. This book is written for managers - senior and middle managers who influence the customer service of a company by deciding what employees who deal directly with customers on the phone, the Internet, or in person will deliver an awesome customer

experience. They tell employees what is expected of them in terms of customer service, and they evaluate and report to them their service performance. Service leaders and champions of service can use this book to drive a service strategy. Entrepreneurs who want to grow their businesses through a service culture will find these ideas valuable.

In 1945 Henry Ford II and designer E.T.  
Gergorie got together and come up with the  
"Sportsman. A woodie convertible that they  
thought might perk up the warmed over  
1942s that would become the 1946 models.  
A prototype was built in October 1945 and  
was given a green light for full production.  
Sales were meager and production only  
lasted two years, but the "Sportsman" left an  
indelible mark on post World War II auto  
history. This book gives you a close-up look  
at both the Ford and Mercury "Sportsman".
