Dodge Grand Caravan & Chrysler Town & Country Haynes Repair Manual Chicago Review Press

In the early 1970s, Chrysler started working on a "magic wagon" -- a completely new passenger van that would fit into a normal garage. It was a daring project for a company that was strapped for cash. This book taps the

people who created the minivans, with previously unpublished photos of the original clay models. It is not just a story of a vehicle, but of the people who pushed it through the development process, brought it to life, and refreshed it in the face of intense competition. Engineers, planners, and designers started arguing over alternatives ten years before the first van left the factory. This book dives into the reasons behind their decisions, and some of the ways minivans could have been very different; it also covers electric and CNG minivans, engines and transmissions, concept cars, and the assembly plants. The paperback is generously illustrated with full-color design studies and photos of the final product; the Kindle version has fewer photos, but still covers the original clay models and the concepts. "It's incredibly rare when the auto industry creates an entirely new class of vehicle, and rarer still when that innovation is an unqualified success story, but such was the case with Chrysler and the development of the minivan. "In Mopar Minivans, Zatz uses the people who were there to retell in vivid detail the largely forgotten story of how this innovative people mover evolved into a quintessential piece of American family life for two generations. It's a story that showcases not only how the automotive industry can work at its best, but also the ways that the industry's prevalent groupthink mentality can stifle innovation." -- Larry Vellequette, Automotive News "I am amazed how complete you are, having not been on-site in the front trenches during agreements, disagreements, and, yes, even skirmishes, at times." -- Chrysler employee David Zatz founded Chrysler-focused web site allpar.com; he also holds a Ph.D. in social and organizational psychology from Columbia University, and has been a business consultant for 20 years.

Dodge 100 Years

An extraordinary memoir from an Iranian journalist in exile about leaving her country, challenging tradition and sparking an online movement against compulsory hijab. A photo on Masih's Facebook page: a woman standing proudly, face bare, hair blowing in the wind. Her crime: removing her veil, or hijab, which is compulsory for women in Iran. This is the self-portrait that sparked 'My Stealthy Freedom,' a social media campaign that went viral. But Masih is so much more than the arresting face that sparked a campaign inspiring women to find their voices. She's also a world-class journalist whose personal story, told in her unforgettably bold and spirited voice, is emotional and inspiring. She grew up in a traditional village where her mother, a tailor and respected figure in the community, was the exception to the rule in a culture where women reside in their husbands' shadows. As a teenager, Masih was arrested for political activism and was surprised to discover she was pregnant while in police custody. When she was released, she married quickly and followed her young husband to Tehran where she was later served divorce papers to the shame and embarrassment of her religiously conservative family. Masih spent nine years struggling to regain custody of her beloved only son and was forced into exile, leaving her homeland and her heritage. Following Donald Trump's notorious immigration ban, Masih found herself separated from her child, who lives abroad, once again. A testament to a spirit that remains unbroken, and an enlightening, intimate invitation into a world we don't know nearly enough about, *The Wind in My Hair* is the extraordinary memoir of a woman who overcame enormous adversity to fight for what she believes in, and to encourage others to do the same.
