Haynes manuals are written specifically for the do-it-yourselfer, yet are complete enough to

be used by professional mechanics. Since 1960 Haynes has produced manuals written from hands-on experience based on a vehicle teardown with hundreds of photos and illustrations, making Haynes the world leader in automotive repair information.

Dodge Hearst Books

Every Haynes manual is based on a complete teardown and rebuild, contains hundreds of "hands-on" photos tied to step-by-step instructions, and is thorough enough to help anyone from a do-it-yourselfer to a professional.

Driver's Manual Bentley Pub

Now there's another way to get more horsepower: boring and stroking your Mopar small-block to get more cubic inches - up to 476 cubes! The small-block Mopar is one of the easiest engines in which to increase displacement without extensive modifications or specialized machine work - the engine was practically designed for more cubes! This book shows you how to get that big-cube power, and then it shows you how to optimize the small-block's other systems - induction, heads, valvetrain, ignition, exhaust, and more to make the most of the extra cubic inches. Author Jim Szilagyi is a Performance Specialist for Dodge Motorsports and Mopar Performance Parts. In this book he covers building big-inchers from Mopar 318/340/360 -ci LA or Magnum 5.2-/5.9-liter engines, using both factory and aftermarket parts. If you want to make big power from your Mopar small-block, this is the book for you!

The A-904 and A-727, debuting in 1960 and 1962, respectively, are 3-speed automatic Chrysler TorqueFlite Transmissions. In Mopar circles, they have become synonymous with strength, durability, and performance. In fact, 43 years after its first application, A-904s were still found in the Jeep lineup! TorqueFlites are known for their dependability, but many have endured a tremendous amount of abuse over 50-plus years when hooked up to V-8 Mopar powerplants. There is little doubt that some of these automatics could be prone to failure, or at least need a thorough rebuild. Tom Hand shares his decades of experience rebuilding TorqueFlite transmissions with chapters dedicated to troubleshooting, disassembly and reassembly, performance modifications, post-installation procedures, and the most thorough source guide offered in print, ever. The author walks you through the TorqueFlite rebuild with color photos showcasing step-by-step procedures with highly detailed, easy-to-follow text. This book will keep money in your pocket and add experience to your résumé, but more important, it will help you get your Mopar back on the road! p.pl {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial}

Some days are a breeze and others bring you lower than your knees. Written for the high and low days, Just Praises is a collection of short praise stories that warms the heart, uplifts the soul, and magnifies God's wonderful love and care for His children. See God answer before you call, watch Him restore two-fold the financial blessing you gave to someone, and experience His insurance which pays out prior to an accident-all in Just Praises. Be blessed! Sneak Peek Inside! Chapter VI: Heavenly Insurance I "For he shall give his angels charge over thee, to keep thee in all thy ways." Psalm 91:11 Back in 1998, my husband had an appointment in Brooklyn, NY and was proceeding fast on the Jackie Robinson Parkway bound for his destination. As he came into a curve, the concrete wall divider was on his left and a vehicle was on his right. When he cleared the curve, he faced death dead on. Straight ahead was a flatbed tow truck, the kind with the sharp horizontal metal sticking out the rear end. With insufficient space between the tow truck and his vehicle and with the divider to his left and a car to his right, there was no way to go but forward, straight into the end of life as he knew it. Later on my husband said the incident might have only unfolded in seconds but back then it seemed like forever as he faced a sure fire fatality that the collision would have brought. The driver on his right saw what was about to happen and floored it. The one behind realized as well and applied the brakes. A puff of air before impact, my husband swung right into the space made possible just then between the two cars. With a pounding heart and shaking frame, my husband continued on his way, his mind lifting the highest praise to God for the timely salvation He had given to him.
