A fascinating
encyclopedic survey
of the Spanish-
Cuban/American War,
the Philippine War,
and the small wars
between 1899 and
the end of the
occupation of Haiti
in 1934. The name

The usage of
"Spanish-American

War" ignores the
fact that the war
in Cuba had been
largely won by the
Cuban
revolutionaries
before US
intervention, hence
the new title, Span-
ish-Cuban/American
War. The use of
"Philippine
Insurrection" is
replaced by
Philippine War,
since the
Philippine forces
had taken much of

the islands from
Spain before US
ground forces
arrived. And
guerillas or
revolutionaries
have replaced
"bandits," the term
used by the US to

oppositional

A "smoothly written and fair-

minded" (Wall Street Journal) in NYC, among many others biography of architect Philip Johnson -- a finalist for the National Book Critic's Circle Award. When Philip Johnson died in 2005 at the age of 98, he was still one of the most recognizable and influential figures on the American cultural landscape. The first recipient of the Pritzker Prize and MoMA's founding architectural curator, Johnson made his mark as one of America's leading architects with his famous Glass House in New Caanan, CT, and his controversial AT&T Building

in nearly every city in the country -- but his most natural role was as a consummate power broker and shaper of public opinion. Johnson introduced European modernism -- the sleek, glass-and-steel architecture that now dominates our cities -- to America, and mentored generations of architects, designers, and artists to follow. He defined the era of "starchitecture" with its flamboyant buildings and celebrity designers who esteemed aesthetics and style

above all other concerns. But Johnson was also a man of deep paradoxes: he was a Nazi sympathizer, a designer of synagogues, an enfant terrible into his old age, a populist, and a snob. His clients ranged from the Rockefellers to televangelists to Donald Trump. Award-winning architectural critic and biographer Mark Lamster's *The Man in the Glass House* lifts the veil on Johnson's controversial and endlessly contradictory life to tell the story of a charming yet deeply flawed man. A

rollercoaster tale of the perils of wealth, privilege, and ambition, this book probes the dynamics of American culture that made him so powerful, and tells the story of the built environment in modern America.

A Captivating Account of the Golden Age of Piracy, the Search for Sunken Treasure, and the Business of Underwater Exploration Bored by his successful life and obsessed with a boyhood dream of lost pirate treasure, Barry Clifford began a quest for legendary pirate Black Sam Bellamy's ship *Whydah*, which had supposedly wrecked

off the coast of Cape Cod more than two centuries ago. Ignoring claims that he was a fool and a dreamer, Clifford pressed on, until he unbelievably found the *Whydah*...and then the real story begins in a spellbinding story that will capture your imagination.

The Electrician

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY PUBLISHERS WEEKLY New York Times bestselling author Peter F. Hamilton's riveting new thriller combines the nail-biting suspense of a serial-killer investigation with clear-eyed scientific and

social extrapolation to create a future that seems not merely plausible but inevitable. A century from now, thanks to a technology allowing instantaneous travel across light-years, humanity has solved its energy shortages, cleaned up the environment, and created far-flung colony worlds. The keys to this empire belong to the powerful North family—composed of successive generations of clones. Yet these clones are not identical. For one thing, genetic errors have crept in with each generation. For another, the original three clone “brothers” have gone their separate ways, and the branches of the family are now friendly rivals more than allies. Or maybe not so friendly. At least that’s what the murder of a North clone in the English city of Newcastle suggests to Detective Sidney Hurst. Sid is a solid investigator who’d like nothing better than to hand off this hot potato of a case. The way he figures it, whether he solves the crime or not, he’ll make enough enemies to ruin his career. Yet Sid’s case is about to take an unexpected turn: because the circumstances of the murder bear an uncanny resemblance to a killing that took place years ago on the planet St. Libra, where a North clone and his entire household were slaughtered in cold blood. The convicted slayer, Angela Tramel, has always claimed her innocence. And now it seems she may have been right. Because only the St. Libra killer could have committed the Newcastle crime.

Problem is, Angela also claims that the murderer was an alien monster. Now Sid must navigate through a Byzantine minefield of competing interests within the police department and the world's political and economic elite . . . all the while hunting down a brutal killer poised to strike again. And on *St. Libra*, Angela, newly released from prison, joins a mission to hunt down the elusive alien, only to learn that the line between hunter and hunted is a thin one. **BONUS:** This edition

THE UNIVERSAL CYCLOPEDIA
At the start of World War One, German warships controlled Lake Tanganyika in Central Africa. The British had no

naval craft at all upon 'Tanganjikasee', as the Germans called it. This mattered: it was the longest lake in the world and of great strategic advantage. In June 1915, a force of 28 men was despatched from Britain on a vast journey. Their orders were to take control of the lake. To reach it, they had to haul two motorboats with the unlikely names of Mimi and Toutou through the wilds of the Congo. The 28 were a strange bunch -- one was addicted to Worcester sauce, another was a former racing driver -- but the strangest of all of them was their skirt-wearing, tattoo-covered commander, Geoffrey Spicer-Simson. Whatever it took, even if it meant becoming the god of a local tribe, he was determined to cover himself in glory. But the Germans had a surprise in store for Spicer-Simson, in the shape of their secret 'supership' the Graf von Gotzen . . . Unearthing new German and African records, the prize-winning author of *The Last King of Scotland* retells this most unlikely of true-life tales with his customary narrative energy and style. Fitzcarraldo meets *Heart of Darkness*, this is rich, vivid and flashmanesque in its appeal - military history at its most absorbing and entertaining
