Marketing visionary Martin Lindstrom has been on the front line of the branding for over twenty years. In *Brandwashed*, he turns the spotlight on his own industry, drawing on all he has witnessed behind closed doors, exposing for the first time the full extent of the psychological tricks and traps that companies devise to win our hard-earned money. Lindstrom reveals eye opening details such as how advertisers and marketers target children at an alarmingly young age (starting when they are still in the womb), what heterosexual men really think about when they see sexually provocative advertising, how marketers and retailers stoke the flames of public panic and capitalize on paranoia over diseases, extreme weather events, and food contamination scares. It also presents the first ever evidence to prove how addicted we are to our smartphones, and how certain companies (like the maker of a very popular lip balm), purposely adjust their formulas in order to make their products chemically addictive, and much, much more. *Brandwashed* is a shocking insider's look at how today's global giants conspire to obscure the truth and manipulate our minds, all in service of persuading us to buy.

Jou'lania's father worked every day to provide for his family; he respected the Word of God, and he loved his wife as Christ loves the church. Her father showed his affection by polishing her Sunday shoes, her self-esteem, and her spirit. But as the years passed, her shoes became soiled with dirt and splatter. She did not want anyone to know how dirty her shoes were, and she began to hide them. Each day was another exercise in obscuring her unhappy life with hairstyles, fake smiles, new clothes, and sweet smelling fragrances. But those things did nothing to comfort the pain in her heart for the three failed marriages. It was only by looking to the Lord for guidance and remembering how her father made her feel as a little girl that she was able to step out of the mud and be clean again. *Daddy Polished My Shoes* celebrates a father whose love his daughter never doubted and considers the profound lessons she learned from his example about life. It is a must read, a page-turner packed with family dynamics that would make you laugh, cry, forgive, and love again.

Going through the motions will never deliver amazing and transformational results, in your business, your career, nor your spiritual life. To achieve the legal and God-given right to life,

freedom and happiness, every assumption, every belief, every habit, and every tradition that has become your experience must be challenged. Our assumptions about the purpose of people and relationships in our lives, our beliefs about who we are and who God is, our habits and routines in the daily navigation of our experience, and the traditions of worship, church, and spirituality should be appraised to ensure they are potent, powerful, and purposeful in bringing the happiness, health and wealth we innately desire. So what are these smooth stones? These stones are the foundation of our relationship with God. They are the firm truths about God, others, and ourselves we've tested and know for sure. We use them as tools to learn, advance, and propel us to the happiness, health, and prosperity we were created to inherit and experience as children of God. Like David, we use these stones as weapons, against our personal Goliaths; giant challenges, threats and illusions of lack, sickness, and distress whether imposed by others or ourselves. These stones are also reminders of how we've grown and matured from the lessons we've learned through our experiences. We lay these stones down and walk on them on this road of salvation and success. In his inaugural book, *Five Smooth Stones: What I Know About God for Sure*, Larry shares his journey from religious complacency to spiritual empowerment. Through metaphysical interpretation of scripture, valuable spiritual educational insights, and candid storytelling, this first-time author leads us through his journey to spiritual accountability and empowerment. For the believer and non-believer as well, this provocative essay will compel you to start, resume, or refocus your relationship with God.

DEXA 2004, the 15th International Conference on Database and Expert Systems Applications, was held August 30 ? September 3, 2004, at the University of Zaragoza, Spain. The quickly growing spectrum of database applications has led to the establishment of more specialized discussion platforms (DaWaK Conference, EC-Web Conference, EGOVConference, Trustbus Conference and DEXA Workshop: Every DEXA event has its own conference proceedings), which were held in parallel with the DEXA Conference also in Zaragoza. In your hands are the results of

much effort. The work begins with the preparation of the submitted papers, which then go through the reviewing process. The accepted papers are revised to final versions by their authors and are then arranged within the conference program. All culminates in the conference itself. For this conference 304 papers were submitted, and I want to thank to all who contributed to it; they are the real base of the conference. The program committee and the supporting reviewers produced altogether 942 referee reports, in average 3,1 reports per paper, and selected 92 papers for presentation. At this point we would like to say many thanks to all the institutions that actively supported this conference and made it possible.
