Years after the Summer of Love, the promise of the psychoactive 1960s—that deeper self-awareness and greater harmony can be achieved through reality-bending substances and practices—is close to becoming a mainstream phenomenon. The signs are everywhere, from a renewed interest in the therapeutic effects of LSD to the popularity of ayahuasca trips and the annual spectacle of Burning Man. The Psychedelic Experience, created by the prophetic shaman-professors Timothy Leary, Ralph Metzner, and Richard Alpert (Ram Dass), is a foundational text that serves as a model and a guide for all subsequent mind-expanding inquiries. Based on a unique interpretation of The Tibetan Book of the Dead, The Psychedelic Experience remains a vital testament to broadening spiritual consciousness through a combination of Tibetan meditation techniques and psychotropic substances. For a new generation seeking the trip of a lifetime, The Psychedelic Experience is the essential guidebook to getting there.

A gorgeously illustrated history of the literary, film, and arts counterculture--now in paperback! Simultaneously a literary movement, ultra-hip subculture, and burgeoning cottage industry, steampunk is the most influential new genre to emerge from the late twentieth century. Spinning tales populated with clockwork leviathans, cannon shots to the moon, and coal-fired robots, it charts alternative histories in which the British Empire never fell and the atom remained unsplit. Spectacularly illustrated and international in scope, this comprehensive history explores steampunk's many intricate expressions in fiction, cinema, television, comics, and video games, and traces its evolution into a truly global aesthetic that has made its mark on art, architecture, fashion, and music. From the classic science-fiction of Jules Verne, H. G. Wells, and Mary Shelley, through the dystopian futurescapes of Cyberpunk, to the otherworldly imaginings of Hayao Miyazaki, Alan Moore, and China Miéville, author Brian J. Robb sets the key works of steampunk squarely under the lens of his brass monocle and ventures into a world where airships still rule the skies.
