and Motor Vehicle Equipment, Including Tires, Reported to the National Highway Traffic Safety Administration by Domestic and Foreign Vehicle Manufacturers, January 1, 1995 to December 31, 1995 Krause Publications
This collection of stories profiling one hundred beautiful vehicles (and their owners) is the ultimate gift book for car lovers. New York Times best-selling author and popular Wall Street Journal "My Ride" columnist A.J.

Baime selects the one hundred cars, motorcycles, and other vehicles to fill the dream garage. Stunning photography and Baime's engaging essays celebrate everything drivers love about their cars--from technical specifications to satisfy gearheads to intangibles like a driver's relationship with his or her car--making it truly "my ride." You want fast? Step on the gas in a Koenigsegg CCX, '87 Lamborghini, or 1970 Pontiac GTO. You want

classic? Here are the keys to a '62 Corvette, '57 Thunderbird, or 1930 BMW--the oldest Bimmer in the United States. You want cool? Take a '64 Shelby Cobra, Tesla Model X, or Aston Martin Vulcan for a spin. You want one-of-a-kind? How about a '52 Seagrave fire truck, '73 VW Thing, or the Batmobile? You also get to meet the owners. There's the story of a pizza-delivery man who dodges polar bears in his Hyundai in Barrow, Alaska; an NBA star who endures Los

Angeles traffic by having his Tesla drive for him; and a retired Kentucky entrepreneur with a 22-foot-long 1937 Cadillac, which he calls "the biggest, baddest car that could exist."

A Guide to the Antiquities of Upper Egypt

Haynes Publishing

In 1962, South Korea assembled just 1,100 new automobiles. By 1996, this total had soared to 2,812,714. What explains this remarkable growth? The answer is complex, and involves a combination of a

supportive State, timely technology alliances, a skilled but historically low-paid workforce, aggressive pricing, savvy entrepreneurs, and fortuitous circumstances. Despite this amazing ascent, comparatively little has been written about the Korean auto industry in English. In the first of a two-volume set, this 11-chapter book seeks to help fill this void by providing in-depth examinations of all six of Korea's automakers from their beginnings through 1996. Uniquely written from the perspective of industry analysts at the time (without knowledge of the

Asian Fiscal Crisis), and many other the book should prove informative to practitioners, scholars, and students interested in automotive history, international political economy, Asian studies, and more. A.J. Jacobs is Professor of Sociology at East Carolina University, USA.
