Biblical Foundations Award Finalist and Runner Up Since the unexpected popularity of Bart Ehrman's bestselling Misquoting Jesus, textual criticism has become a staple of Christian apologetics. Ehrman's skepticism about recovering the original text of the New Testament does deserve a response. However, this renewed apologetic interest in textual criticism has created fresh problems for evangelicals. An unfortunate proliferation of myths, mistakes, and misinformation has arisen about this technical area of biblical studies. In this volume Elijah Hixson and Peter Gurry, along with a team of New Testament textual critics, offer up-to-date, accurate information on the history and current state of the New Testament text that will serve apologists and Christian students even as it offers a self-corrective to evangelical excesses.

Few cars in modern times have caused as much of a stir as the turbocharged Subaru Impreza. It came from nowhere at the start of the 1990s to claim three successive World Rally Championships for its makers in the middle of that decade, and went on to become an enthusiasts' car thanks to its affordability, high performance - and, of course, the glorious exhaust note of its unusual flat-four 'boxer' engine. This book examines the three generations of Subaru Impreza WRX and WRX STI from 1992 - 2012, including how the roadgoing cars were developed from the successful rally models, production history and specification details. Topics covered include: History of the Impreza, and early days in competition with the Leone and the Legacy models. Construction and derivatives of the distinctive flat-four engine. Innovations in the Impreza's four-wheel-drive system. Design and specifications for special editions. Includes material from Prodrive on their limited edition models. Examines both rally and roadgoing cars.
