### Black Enterprise

Explains that the static stability factor is an indicator of a vehicle's propensity to roll over, and that US government ratings for vehicles do not reflect differences in rollover resistance. This report states that the 5-star system should allow discrimination among vehicles and incorporate results from road tests that measure vehicle control.

### Popular Mechanics

The most convenient, reliable new-car buying guide available provides easy-to-use evaluations of more than 125 foreign and domestic models and hundreds photographs and 2-color printing for maximum clarity. Includes test results, ratings, comparisons, prices, and lists of best and worst features of each car.

### Popular Mechanics

20,000 Collisions Waiting to Happen. That's what

---

faces America's driving population each and every day. No wonder. An exploding population of poorly-trained, overconfident, aggressive drivers cram themselves into a barely-growing network of pavement. That's why crashes shut down parts of our metropolitan arteries almost daily. It's why bad weather always brings a spike in the number of incidents. And it's why driving remains the most dangerous thing most of us do in our lives. The Driving Challenge was written to help reduce the odds that you'll be involved in one of those 20,000 daily collisions. It is drawn from Phil Berardelli's years of painstaking observations and research, and from his own experiences as a reformed aggressive driver. Just as in *Safe Young Drivers*, his acclaimed book for parents and teens, Phil provides sound advice and simple rules that can make a big difference in your safety - starting with the next time you slip behind the wheel. You can be safer and happier on the road. All it requires is a willingness to change - to refuse to accept the status quo on the roads any longer.

The National Highway Traffic Safety Administration's Rating System for Rollover Resistance
