Renard explains the significance of the Five Pillars, Muhammad, various sects, the Qur'an, Islamic law, and much more. Questions Muslims Ask Harvard University Press

"Recent events have focussed attention on Islam, the often-misunderstood faith of one

billion people. Westerners are showing a new openness to learning about Islam and other religions, in part perhaps because religion is arguably the single most important and volatile factor in geopolitics today. Islam needs to be understood on its own terms, John Kaltner argues." "This little Facet offers the most basic information about Islam in an accessible and sympathetic presentation. Kaltner portrays Islam as first and foremost a religion of prescribed practices - the five pillars of Islam. Showing the deep humanism of Islam and its most cherished commitments, Kaltner presents Islam through assertions that counter frequent misconceptions of the faith."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. The Author corrects the misinterpretation of the verses of the Holy Quran, spread by the detractors of Islam. He describes in detail the genesis of miracles, in the light of the Miracle of the Holy Quran, and repudiates the aspersions cast on Islam, through strong arguments and pertinent examples from the Gospels. Common Questions People Ask about Islam Rowman & Littlefield

In "Islam Unveiled," Robert

Spencer dares to face the hardman that Islam hails as the questions about what the Islamic religion actually teaches--and the potentially ominous implications of those teachings for the future of both the Muslim world and the West. Going beyond the shallow distinction between a "true" peaceful Islam and the "hijacked" Islam of terrorist groups, Spencer probes the Koran and Islamic traditions (as well as the history and present-day situation of the Muslim world) as part of his inquiry into why the world's fastest growing faith tends to arouse fanaticism. "Islam Unveiled" evaluates the relationship between Islamic fundamentalism and "mainstream" Islam; the fixation with violence and jihad; the reasons for Muslims' disturbing treatment of women; and devastating effects of Muslim polygamy and Islamic divorce laws. Spencer explores other daunting questions--why the human rights record of Islamic countries is so unrelievedly grim and how the root causes of this record exist in basic Muslim beliefs; why science and high culture died out in the Muslim world--and why this is a root cause of modern Muslim resentment. He evaluates what Muslims learn from the life of Muhammad, the supreme model of human behavior. Above all, this provocative work grapples with the question that most preoccupies us today: can Islam create successful secularized societies that will coexist peacefully with the West's multicultural mosaic?

The classic translation of the Koran by a convert to Islam In 1930, Mohammed Marmaduke Pickthall, a Western Islamic scholar and convert to Islam, published this English translation of the Koran, the central religious text of Islam, which the Times Literary Supplement lauded as "a great literary achievement." The aim of this work is to present to American readers what Muslims the world over hold to be the meaning of the words of the Koran, and the nature of that Book, accurately and concisely, with a view to the requirements of English-speaking Muslims. The first English translation of the Koran by an Englishman who is a Muslim, the Book is here rendered almost literally, and every effort has been made to choose befitting language. Regarded by Muslims as God's actual words revealed to the prophet Mohammed, the Koran remains the supreme authority of the Islamic tradition. Comprising laws, moral precepts, and narratives, its timeless texts are the inspiration and guide of millions of Muslims. With this remarkably readable and scholarly translation, Pickthall introduces

the sacred scriptures of the Koran to Western readers—and provides invaluable and fascinating insight into one of the world's great religions.

In this Counterpoints volume, five leading scholars present the main religious perspectives on this question, demonstrating how to think carefully about an issue where opinions differ and confusion abounds. *All Worship the Same God: Religious Pluralist View* (Wm. Andrew Schwartz and John B. Cobb, Jr.) *All Worship the Same God: Referring to the Same God View* (Francis J. Beckwith) *Jews and Christians Worship the Same God: Shared Revelation View* (Gerald R. McDermott) *None Worship the Same God: Different Conceptions View* (Jerry L. Walls) Contributors examine related subtopics such as: The difference between God being referentially the same and essentially the same What "the same" means when referring to God The significance of the Trinity in this discussion Whether religious inclusivism is inferred by certain understandings of God's sameness The appropriateness of interfaith worship. Additional essays by Joseph Cumming and David W. Shenk explore the implications of this question specifically for Christians wanting to minister among, and build relationships

with, Muslims. Insightful, gracious, and relevant, *Do Christians, Muslims, and Jews Worship the Same God?* sheds light on one of the most important theological issues of our day. ANSWER TO NON-MUSLIM QUESTIONS

Of the many books explaining Islam, few specifically address the concerns and questions of those from a Christian background. Moreover, the commonalities between the Abrahamic faiths—Judaism, Christianity, and Islam—are too often ignored. Set out in an easy and informative question-and-answer format, the book addresses the specific theological points of agreement and difference between Christianity and Islam, explains the core religious beliefs and practices of Islam, and answers today's most common questions of Islam and Muslims in an age when there is much conflict and misunderstanding. Islam is best judged not by the limitations and transgressions of its most extreme, ignorant, and outlandish followers, but by the example of its moderate majority, and Ruqaiyyah Waris Maqsood presents this introduction to the theology and practice of Islam in an attempt to explore some of the false impressions that surround it.

The Principles of Islam
ideas4islam

The terrorist attack on the Twin Towers, the Afghan conflict, waves of migration, and the presence of twelve million Muslims in the European Union: these are just a few of the things that have helped contribute to a growing interest in Islam, its culture, and its followers. They awaken old and new questions about a religious, cultural, and political reality that

1,200,000,000 people consider themselves a part of. This book is the result of a series of extended interviews between an internationally acclaimed expert on Islam and two journalists who have dedicated themselves for many years to studying key themes of Islam and analyzing the possibility of coexistence between people of different faiths and cultures. How was Islam born? What does the Qur'an represent for Muslims? What relationships have developed between Islam and violence, between Islamic culture and the West? How can a real integration of Islam take place in European societies? What are the conditions for a constructive encounter between Christians and Muslims? Samir Khalil Samir one of the world's leading experts on Islam responds to these questions in an in-depth interview that can help one learn and judge for oneself, without prejudice or naivete. This is a contribution in the spirit of the realism needed in order to build adequate ways of living with those who have become our new neighbors.
