The kingdom of France, a byword for upheaval and instability for a century before 1660, was transformed over the subsequent generation into the greatest power in Europe and an institutional model admired and imitated almost everywhere. A further century elapsed before this hegemony was challenged, and even then the collapse of monarchy in 1788 took most people by surprise. This book, bringing together an authoritative international panel of historians, portrays and analyses the life of France between two revolutions, a time later known as the old regime. All aspects of French life are covered: the economy, social development, religion and culture, French activity overseas, and not least politics and public life, where our understanding has been completely renewed over recent years. A detailed chronology and full bibliography complete this compelling analysis of an age behind whose calm and assured facade forces were developing which were to shape a very different country and continent.

The #1 bestseller that gives YOU complete control over your body and your health. In this updated and expanded edition, America's favorite doctors, Michael Roizen and Mehmet Oz, discuss how YOU actually have control over your genes. Discover how diseases start and how they affect your body—as well as advice on how to prevent and beat conditions that threaten your quality of life. YOU: The Owner's Manual challenges preconceived notions about how the human body works and ages, and takes you on a fascinating grand tour of all your blood-pumping, food-digesting, and numbers-remembering systems and organs—including the heart, brain, lungs, immune system, bones, and sensory organs. There are also 100 questions asked by you, and answered by the experts. For instance, do you know which of the following statements are true? As you increase the amount you exercise, the rewards you gain from it increase as well. If you're not a smoker, you have nothing to worry about when it comes to your lungs. Your immune system always knows the difference between your own cells and enemy invaders. The biggest threat to your arteries is cholesterol. Memory loss is a natural, inevitable part of aging. Stress is the greatest ager, and controlling it changes which of your genes is on. Did you answer "true" for any of the above? Then take a look inside. Complete with exercise tips, nutritional guidelines, simple lifestyle changes, and alternative approaches, YOU: The Owner's Manual debunks myths and gives you an easy, comprehensive, and life-changing How-To plan—as well as great-tasting and calorie-saving recipes—that can help you live a healthier, younger, and better life. Be the best expert on your body!
