**GM N-cars**

Go behind the scenes for a look at Warren Johnson's path to

becoming The Professor of Pro Stock. This new book illuminates

the life and career of one of the most prolific engine builders

and racers ever to compete in the ultra-competitive Pro Stock

category, drag racing's most technologically advanced class.

Warren Johnson navigated the world of factory hot rods for more

than 45 years, devoting himself to full-time racing in 1975 and

relentlessly pursuing horsepower and victory from the driver's

seat and the engine room. Johnson's devotion to research and

development opened the door to a long-standing relationship with

Oldsmobile and GM Performance, beginning with the birth of the

Drag Racing Competition Engine (DRCE) that is still used by every

competitive team in the class. He excelled when it came to

outthinking the competition and was outspoken on matters that he

deemed vital. Johnson embraced thinking outside the box and

pushed boundaries to affect change in terms of both safety and

the advancement of the class, but he also knew when it was

appropriate and necessary to put on a good show for the fans.

Through his tireless efforts and with the support of a small crew

that included his wife, Arlene, and son, Kurt, Johnson claimed

two IHRA championships and six NHRA world titles, along with an

astounding 97 national event wins that placed him in the position

of being the most-winning driver of all time in the Pro Stock

category. This book, complete with photos from the family archive

and striking professional images of Johnson's many race cars,

dives into it all, beginning with his childhood and early days of

match racing when he developed the stern frugality and fierce

resourcefulness that was the foundation of a tremendously

successful, though sometimes controversial, career.
