Geneva Lake camps provided education, activities, spirituality, and community in a healthy environment away from the city. The first sites were located on the western shores of Geneva Lake, with Camp Collie established in 1874; seventeen more followed. Although most camps were spiritually based, they differed in what they offered and who they served. People attending the camps came from all income levels and many cultures. Adult- and family-oriented camps provided a setting for vacations or conferences, and children's camps prided themselves on fostering responsibility and solid values. Images of America: Camps of Geneva Lake highlights 18 camps in the days of woolen bathing costumes, steam yachts, and platform tents.

The real story of how the federal government finally apprehended and convicted America's most notorious criminal, Al Capone. Drawing on recently discovered government documents, wiretap transcripts, and Al Capone's handwritten personal letters, New York Times bestselling author Jonathan Eig tells the dramatic story of the rise and fall of the nation's most infamous criminal in rich new detail. From the moment he arrived in Chicago in 1920, Capone found himself in a world with limitless opportunity. Within a few years Capone controlled an illegal bootlegging business with annual revenue rivaling that of some of the nation's largest corporations. Along the way he corrupted the Chicago police force and local courts while becoming one of the world's first international celebrities. Legend credits Eliot Ness and his "Untouchables" with apprehending Capone, but Eig shows that this wasn't so. In *Get Capone*, the man known as "Scarface" emerges as a complex man, doomed as much by his ego as by his vicious criminality. This is the real Al Capone.

Issues highlights the publications that have revolutionized magazine design and examines the concepts behind their format, page designs, covers, words and images. David Carson's Raygun, Terry Jones' ID, and Visionaire are three powerful examples that have broken traditions and forged images that are aesthetically individual and unique. Around the world countless magazines are published on a regular basis and the competition to attract readers is extremely fierce. But why is this compact, portable and highly accessible medium so effective in disseminating information to the public? And why contrary to predictions has it not been eclipsed by the world wide web? Issues answers these questions and also demonstrates clearly why the digital encounter has proved unequal to the delightfully tactile and spectacular reading experience afforded by print. If a magazine is 'a storage place for explosives', then Issues is a complete arsenal of the most highly explosive magazine designs ever created.

For twelve years, Andrea Lankford lived in the biggest, most impressive national parks in the world, working a job she loved. She chaperoned baby sea turtles on their journey to sea. She pursued bad guys on her galloping patrol horse. She jumped into rescue helicopters bound for the heart of the Grand Canyon. She won arguments with bears. She slept with a few too many rattlesnakes. Hell yeah, it was the best job in the world! Fortunately, Andrea survived it. In this graphic and yet surprisingly funny account of her and others' extraordinary careers, Lankford unveils a world in which park rangers struggle to maintain their idealism in the face of death, disillusionment, and the loss of a comrade killed while holding that thin green line between protecting the park from the people, the people from the park, and the people from each other. Ranger Confidential is the story behind the scenery of the nation's crown jewels—Yosemite, Grand Canyon, Yellowstone, Great Smokies, Denali. In these iconic landscapes, where nature and humanity constantly collide, scenery can be as cruel as it is redemptive.

Harley-Davidson FXD/FLD Dyna Series 2012-2017 McGraw Hill Professional

Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set.
