DIVWhen it comes to collector motorcycles,

none hold the allure of the classic Harley-Davidson Big Twins built from 1936 to 1964. But owning and maintaining these temperamental machines provides endless challenges. Even the most pristine, restored example needs a tremendous amount of care, maintenance, and repair. The rebuilding and restoring of these machines is not so much a defined task as a never-ending process. This book serves to guide owners through that process. Beginning with a practical section on understanding, choosing, and purchasing a classic Harley, this book focuses on the nuts and bolts of classic Harley ownership. Through step-by-step photography and thoughtful, informative instruction, the reader will learn how to

disassemble a chassis, rebuild a fork, lace a wheel, and paint the major parts for any restoration. It also provides thorough instruction on repairing, overhauling, and restoring all major components, such as the engine, transmission, and electrical system.

The Last 100 Yards Springer

Fundamental Constructs in Mathematics Education is a unique sourcebook crafted from classic texts, research papers and books in mathematics education. Linked together by the editors' narrative, the book provides a fascinating examination of, and insight into, key constructs in mathematics education and how they link together. The choice of constructs is based on (some of) the many constructs which have proved fruitful in research and which have informed choices made by teachers. The book is divided into two parts: learning and teaching. The first part includes views about how people learn - from Plato to Dewey, as well as constructivism, activity theory and French didactiques. The second part includes extracts concerned with initiating, sustaining and bringing to a conclusion learners' work on mathematical tasks. Fundamental Constructs in Mathematics Education provides access to a wide range of constructs in mathematics education and orients the reader towards important original sources.

Incorporated

This book addresses a wide range of topics relating to head and neck and endocrine surgery, including: maxillofacial injuries, surgery of the scalp, surgery of the salivary glands, jaw tumors, surgery of the oral cavity (lips, tongue, floor of the mouth, and palate), swellings and ulcers of the face, inflammation in the neck, cervical lymphadenopathy, midline and lateral neck swellings, tumors of the pharynx, and endocrine surgery (thyroid

gland, parathyroid glands, suprarenal glands, and neuroendocrine tumors). The aim is to clearly describe and illustrate how to diagnose and treat diverse conditions in accordance with evidence-based practice. The coverage thus extends beyond surgical indications and procedures to encompass aspects such as anatomy, clinical presentation, and imaging diagnosis. The book has been structured in such a way as to facilitate quick reference. While it is primarily intended for practitioners, it will also be suitable for upper graduate students.

Never Far Away Macmillan

The Last 100 Yards: The Crucible of Close Combat in Large-Scale Combat Operations presents thirteen historical case studies of close combat operations from World War I through Operation Iraqi Freedom. This volume is a collection from the unique and deliberate perspective of the last 100 yards of ground combat. In today's Army, there are few leaders who have experienced multi-domain large-scale ground combat against a near-peer or peer enemy first hand. This volume serves to augment military professionals'

understanding of the realities of large-scale ground combat operations through the experiences of those who lived it.
