all classic cars, with many thousands preserved across the world, many in regular use. Over the years countless changes were introduced, together making a mid sixties Beetle, for instance, very different from one built in the mid-50s, or mid-70s, despite the obvious similarities. With the aid of hundreds of full colour photographs this new edition in paperback documents all the Beetle's specification changes and model differences during the classic period 1949-67, making it possible to determine the original specification and fittings of any Beetle from this period. Uses the same format as for the highly successful VW Transporter spec guides. Aimed at early-Beetle owners and enthusiasts. Superbly illustrated with 300 colour photographs. New edition in paperback for 2018.

The specially commissioned photographs in this book display each Beetle variant model in their full glory. From the military vehicles of the 1930s through the post-WWII cars, up to and including the final German-built model of 1979, this book offers a loving tribute to the car in sumptuous detail. The beautifully restored and kept cars of each decade are displayed across several double page spreads. Parts of each model are shown in close-up, compared and explained using studio photographs of each model's steering wheels, indicators, engine bays and other aspects of design and function. The history of the Beetle is illustrated using contemporary archive photography, and attention is given to the cultural impact of the Beetle as shown through movies (such as the Herbie franchise), advertising and graphic design. This large format, fully

illustrated book presents the Beetle as an object of art, albeit one that starts every time and will run forever on reused cooking oil, with a little modification. Word count: 24,000
