 In this book, an almost new
 approach to modern
 thermodynamics has been
 applied. One or more useful
 qualitative discussion
 statements have been extracted
 from each equation. These and
 other important statements
 were numbered and their titles
 were situated in an index titled
 "Hilal and Others' statements,
 definitions and rules." This
 ensures very quick obtaining of
 the required statements, rules,
 definitions, equations, and their
 theoretical base that will ease
 readers qualitative discussions
 and calculations.
