Airborne Warfare Haynes Manuals N. America, Incorporated To every member of the 82nd Airborne Division who dropped as part of the American paratroop landings during World War Two, they breathed a little easier knowing their commander "Jumpin' Jim" Gavin would be jumping with them. General Gavin's paratroops drop-landed and fought in Sicily, Normandy on D-Day and during the abortive attempt to capture the Rhine bridges during Operation Market-Garden. He shared the risks of all his men parachuting into enemy territory, often only armed with his GI issue rifle. His memoirs are an outstanding addition to the literature of the Airborne in World War II.

Thank you for reading our PRINCE2 Foundation Training Manual.

The main objective of this book is to provide an easy-to-read and easy-to-understand PRINCE2(R) Foundation training manual. The official PRINCE2 manual, "Managing Successful Projects with PRINCE2," is an excellent reference manual, but it is not a training manual and should not be used as one, as it is very difficult to comprehend and understand if you are new to project management. The official PRINCE2 manual also covers the complete Practitioner Syllabus, and it's impossible to know which parts are just focused on the PRINCE2 Foundation syllabus, so you have to read everything, which is not good if you are just studying for the foundation exam. Henceforth, this book is meant to be (and is) an easy introduction to PRINCE2 based on the Foundation syllabus, and it's quickly becoming the most read book for people wishing to learn about PRINCE2 and prepare for the foundation exam.
