Metal matrix composites are making tangible inroads into the "real" world of engineering. They are used in engineering components such as brake rotors, aircraft parts, combustion engines, and heat sinks for electronic systems. Yet, outside a relatively limited circle of specialists, these materials are mostly unknown. Designers do not as a rule think of using these materials, in part because access to information is difficult as these materials have not really entered engineering handbooks. **Metal Matrix Composites in Industry** is thus useful to engineers who wish to gain introductory knowledge of these materials and who want to know where "to find" them. Additionally, it provides researchers and academics with a survey of current industrial activity in this area of technology.

Sometimes what you think God wants for you is most likely the last thing He wants for you. That's exactly what Aimee encountered with a six-year romantic relationship with a deceitful man. Growing in the Christian faith, She knew She wanted to continue following Jesus; with that, the enemy knew the right tactics to make her believe she was doing that with a man named Bryce, that wasn't living up to the expectations she had. Encountering all the infidelities, lies and deceit she still refused to let go of the relationship which was causing her to become blinded to the reality of it. It took God to remove Bryce from her life entirely, in order for her to regain her worth and restore what she had lost within herself. God is so compassionate that He did not forget the desires of my heart even after. In the midst of getting over what happened between her and Bryce, He places someone she believed is not a good fit. Little did she know God is behind this one. Never did she once think she was going to meet the man of her dreams and future husband so soon after her break up with Bryce. Even though it was no easy task to adapt to another man after him, Nelson opened her eyes to see that not all men are the same and that it is possible to love flawlessly if you just let go.
