Annotated Cases, American and English Chicago Review Press

An L.A. hot rodder with a high school education, a family to support and almost no money, Craig Breedlove set out in the late 1950s to do something big: harness the thrust of a jet in a car. With a growing obsession that would cost him his marriage, he started building in his dad's garage. The car's name: Spirit of America. Through perseverance and endless hard work, Craig completed Spirit and broke the land speed record on the Bonneville Salt Flats, setting a new

mark of 407 mph in the authorized
1963. In the early 1970s he turned to rockets and set an acceleration record at Bonneville that stands to this day. He built a jet car in the 1990s, Spirit of America—Sonic Arrow, to go head-to-head against Britain's ThrustSSC to be the first to Mach One. Craig's subsequent crash at 675 mph remains the fastest in history. Even today, at the age of 80, he is going strong with plans for yet another Spirit of America racer. The ultimate goal: 1,000 mph. Ultimate Speed is

biography of Craig Breedlove, a candid revelation of one of motorsports' most interesting figures based primarily on countless hours of interviews with Craig and dozens of people connected to his life.

Popular Science
Do you think Chinese tanks and models are not interesting? Wait to see this book ...
Until now is the most complete, detailed and exhaustive study about PLA for modelers ever done. This book is not only having historians in mind but also for modelers and readers that can be interested to know something

more about the Chinese army power. After reading this book many modelers will have much more interest in building a Chinese vehicle as a next model. Through its pages we will discover not only the power and main weapons of the Chinese PLA since its origins, but also the way to paint them, showing different techniques and camouflages for the Chinese vehicles. The kits which appear in this book, belong to the main Chinese brands, and makes this book the perfect guide not only for modelers and enthusiasts of Chinese tanks and its strange and exotic camouflages but also for any modelers that want to have a reference book.

Modelers and historians like Adam Wilder, Kristof Pulinks, Lukasz Orczyyc-Musialek, Lester Plaskitt, Sven Frich, Zach Sex, Gordon Arthur, Lei Xu, Verlag Jochen, Chris Jerret, Oscar Ebrí, Brian Murdoch or David Bocquelet give us an idea of the quality of this publication that until now is the most complete, detailed and exhaustive study about PLA for modelers ever done.

Popular Science

The compellingly self-confident, handsome, gifted race driver, and mechanical genius named Frank Lockhart has long captured the imagination and curiosity of generations of automobile racing fans as a classic example of the "What if he had lived?" enigma. There remains even today a certain mystery about Frank's amazing talent and fearless driving ability. There also have been a sizeable number of myths about his life that have grown up over the years and have been repeated so

often as to become accepted as the gospel truth. In a careful historical effort to set the story straight, authors Sarah Morgan-Wu and Jim O'Keefe have combined their efforts to delve into all aspects of Frank's life and career. They have left no stone unturned in an attempt to verify every bit of information. It is to their credit they have uncovered much long forgotten or hidden information that sheds important light on the true nature of Frank and his remarkable if all too short flash of brilliance on the stage of American automobile racing.--Publisher's description.
