C21 Accounting Introductory Text (Chpt. 1-17), General Journal Approach, begins with a single journal, then introduces users to special journals in Cycle Two.
The Medical Dept. of the U.S. Army in the World War Copyright Office, Library of Congress
This book focuses on the way in which businessmen responded to the

new problem of accounting for fixed assets when measuring periodic profit. The book is divided into four sections: the first embraces items that examine asset valuation procedures in general use during the nineteenth century. The second focuses on the particular practices that became popular among public utility companies. The third comprises studies on influences, particularly legal ones on the treatment of fixed assets in company accounts. The final section examines the likely economic effect of using particular valuation procedures and is another area where available material is scarce. Of the twenty-seven items included, seven were written during the nineteenth century and the remainder during the twentieth. Their emphasis is practical rather than theoretical: they set out the various ways in which companies accounted for fixed assets and provide some explanation for the choices made.

Century 21 Accounting, 1st Year Course, Chapters 1-28 - Working Papers Taylor & Francis

Century 21 Accounting thoroughly prepares your first-year accounting

students for the future. It exposes them to the entire accounting cycle for a variety of business situations. It is the only program that covers the complete accounting cycles for all three major business organizations: sole proprietorships, partnerships, and corporations. Century 21 is the only program that provides you with two distinct instructional approaches. Century 21 Accounting: First-Year Course uses the traditional multi-column journal then moves into special journal. Century 21 Accounting: General Journal Approach begins with a general journal then moves to special journals. Either way, you will get the same content coverage and hands-on problem-solving emphasis. Century 21 Accounting 1st Year Course Thomson South-Western Printed Working Papers help students efficiently complete end-of-lesson, end-of-chapter, and reinforcement activities, as well as improved chapter study guides. Students complete these printed forms and review documents manually.

Rehabilitation Monograph, Joint Series Cengage Learning
The publication of key voyaging manuscripts has contributed to the flourishing of enduring and prolific worldwide scholarship across numerous fields. These navigators and their texts were instrumental in spurring on further exploration, annexation and ultimately colonisation of the Pacific territories in the space of only a few decades. This series will present new sources and primary texts in English, paving the way for postcolonial critical approaches in which the reporting, writing, rewriting and

translating of Empire and the 'Other' takes precedence over the safeguarding of master narratives. Each of the volumes contains an introduction that sets out the context in which these voyages took place and extensive annotations clarify and explain the original texts. The first volume makes available Samuel Wallis' logs of the Dolphin's voyage 1766-68 in their original form for the first time. Captain Samuel Wallis was the first Englishman to come across the Tuamotus and the Society Isles in the South Pacific, specifically Tahiti. His writings predate the available textual sources by Louis-Antoine de Bougainville, the logs of the Spanish voyages and James Cook — whose text Wallis' prefigures. The three logs attest to the very first encounter between Europeans and Tahitians, but until now comparatively little research has been conducted on the more elaborate second volume and none on the first. The Polynesian archipelagos grew into objects of discourse over the years and Wallis' logs may very well be located at the heart of these evocative constructs.
