Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Noise Control Engineering Journal Chilton Book Company

This book is based on author Karl Ludvigsen's premise that "consideration of customer needs as a first priority in every aspect of the auto business is not only possible but essential for future success & profitability." He calls this philosophy "customerizing." This book comprehensively explains what it takes to build a customer-driven company. While the examples used are taken from the automotive industry, the "customerizing" concepts described in the book can applied to virtually any industry.
