Ward's Automotive Yearbook Haynes Manuals N. America, Incorporated

In this brilliant and sobering self-portrait, Edouard Levé hides nothing from his readers, setting out his entire life, more or less at random, in a string of declarative sentences. Autoportrait is a physical, psychological, sexual, political, and philosophical triumph. Beyond "sincerity," Levé works toward an

objectivity so radical it could pass for crudeness, triviality, even banality: the author has stripped himself bare. With the force of a set of maxims or morals, Levé's prose seems at first to be an autobiography without sentiment, as though written by a machine--until, through the accumulation of detail, and the author's dry, quizzical tone, we find ourselves disarmed, enthralled, and enraptured by nothing less than the perfect fiction . . . made entirely of facts.

'Blown to Bits' is about how the digital explosion is changing everything. The text explains the technology, why it creates so many surprises and why things often don't work the way we expect them to. It is also about things the information explosion is destroying: old assumptions about who is really in control of our lives.
