Linguistic Emotivity explores expressive and emotive meanings in Japanese from the perspective of the Place of Negotiation theory. The Place of Negotiation theory provides a framework for understanding how linguistic signs function in the place of communication (in cognitive, emotive, and interactional places). The theory finds the indexicality of a sign fundamental and views meanings as being negotiated among interactants who share not only information but, more significantly, feelings. Using analytical tools recognized in conversation and discourse analyses, the book analyzes emotive topics (vocatives, emotive nominals, quotative topics, etc.) and emotive comments (da and ja-nai, interrogatives, stylistic shifts, etc.) in contemporary Japanese discourse. It argues for the importance of emotivity in Japanese, in the context of the Japanese culture of pathos. Linguistic Emotivity challenges the traditional view of language that privileges logos, form, information, and abstraction, and instead, it proposes a philosophical shift toward pathos, expression, emotion, and linguistic event/action. “ An appreciation of Japanese fantasy-film history through the eyes of a filmmaker whose name is obscure but populism remains influential. ” —Chicago Tribune Ishiro Honda, arguably the most internationally successful Japanese director of his generation, made an unmatched succession of science fiction films that were commercial hits worldwide. From the atomic allegory of Godzilla and the beguiling charms of Mothra to the tragic mystery of Matango and the disaster and spectacle of Rodan, The Mysterians, King Kong vs. Godzilla, Honda ' s films reflected postwar Japan ' s anxieties and incorporated fantastical special effects, a formula that created an enduring pop culture phenomenon. Now, in the first full account of this overlooked director ' s life and career, Steve Ryfle and Ed Godziszewski shed new light on Honda ' s work and the experiences that shaped it—including his days as a reluctant Japanese soldier, witnessing the aftermath of Hiroshima, and his lifelong friendship with Akira Kurosawa. The book features close analysis of Honda ' s films (including, for the first time, his rarely seen dramas, comedies, and war films) and draws on previously untapped documents and interviews to explore how creative, economic, and industrial factors impacted his career. Fans of Godzilla and tokusatsu (special effects) film, and of Japanese film in general, will welcome this in-depth study of a highly influential director who occupies a uniquely important position in science fiction and fantasy cinema, as well as world cinema. “ Provides the reader with a lasting sense of the man—his temperament, values, philosophies, dreams, and disappointments?behind some of cinema ' s most beloved characters. ” —Film Comment

Soliloquy in Japanese and English Tuttle Publishing

Language is recognized as an instrument of communication and thought. Under the shadow of prevailing investigation of language as a communicative means, its function as a tool for thinking has long been neglected in empirical research, vis-a-vis philosophical discussions. Language manifests itself differently when there is no interlocutor to communicate and interact. How is it similar and how does it differ in these two situations communication and thought? "Soliloquy in Japanese and English" analyzes experimentally-obtained soliloquy data in Japanese and in English and explores the potential utility of such data for delving into this uncharted territory. It deals with five topics in which elimination from discourse of an addressee is particularly relevant and significant. Four are derived from Japanese: the sentence-final particles "ne" and "yo," deixis and anaphora, gendered speech, linguistic politeness; the fifth topic is the use of the second person pronoun "you" in soliloquy in English."
