From the first motor cars and classic cars to today's

supercars and Formula 1, this is the ultimate book about the history of the car. Packed with stunning photography, and featuring more than 2,000 cars, Car shows you how cars have evolved around the world over the the last 130 years, and their impact on society as objects of curiosity, symbols of status and luxury, and items of necessity. Extensive catalogues showcase the most important marques and models, organized in categories such as sports cars, convertibles, and city compacts. The book also features virtual photographic tours of some of the most iconic cars from each era such as the Rolls Royce Silver Ghost, Ford Model T, Lamborghini Countach, and Ferrari F40, while cross-sections of key engines explore the driving force behind them. Lavishly illustrated feature spreads detail the stories of the men, machines, and magic that helped create the car world's most famous marques and made brands such as Porsche, Mercedes-Benz, Aston Martin, and Cadillac household names. If you love cars, then you'll love Car. It is simply a must-have title for all car enthusiasts.

It's hard to believe, but the W129-series Mercedes-Benz SL was launched over 20 years ago. However, its timeless styling has kept it fresh and attractive in the eyes of a new generation of enthusiasts, as well as those returning to the car having owned one when they

were still in the dealerships. A combination of superb original design and peerless engineering and build quality adds to the desirability of this series of classic German machines, and has ensured that many of these cars can still be seen in regular use today. Covering the SL's ever-changing specification, and its presence in many of the world's major markets is a huge task, but it's all presented here in definitive detail, along with stunning contemporary photography, in a volume that will readily grace any reference library shelf or connoisseur's coffee table. Two earlier books, also published by Veloce, and covering the W113 cars and the 107-series SL and SLC, act as perfect companions to this title, which takes the SL story up to 1989.

If you search for a car that can hold its own, when parked next to a Porsche 911 Cabrio, don't look any further. Because the SL R230 is regarded by many as the best looking SL that has left Stuttgart after the famous SL Gullwing. On top it is immense fun to drive, with powerful V8s and V12s to match the looks. Like the drive-train they are almost bullet-proof. Early cars suffered from quality problems that could spoil the fun factor somewhat. But all in all the R230 plays its GT role rather well, even with six-cylinder engines. And

the AMG versions are true sports cars. This book with comprehensive buyer's guide can help you to find the right one, if the R230 interests you. It was already published as e-book in 2012 and has been completely revised in Nov.2015. The book explains the VIN and data card in great detail, discusses the SBC, ABC systems and looks at potential problems with the vario-roof. Superb photography and an enjoyable test-drive in the splendid SL65 AMG are other highlights. It ends with a detailed list of the cars' technical specifications and annual production history of each model. FREE BONUS: When you have bought this book, you are eligible for a free pdf file of any Mercedes model (such as W111 or W198 or R107 for example) the author has covered in one of his books. Please contact the author through his website (inside the book) and stipulate, which free pdf file you want him to send to you.

Seminar paper from the year 2014 in the subject Business economics - Marketing, Corporate Communication, CRM, Market Research, Social Media, grade: 1,0, EGADE Business School, language: English, abstract: The automobile industry is famous for being ahead of the curve in most areas. Automotive companies cannot rely on a one-time announcement or word-of-mouth chatter to keep a steady stream to customers. These companies have to have well developed advertising strategies in their marketing processes, in order to sustain a profitable growth in all the markets they serve throughout the world. Mercedes-Benz (MB) is a German high-class automobile company. Its products stand for luxury, reliability and dependability. The company belongs to the multinational division of the German manufacturer Daimler AG and has its headquarters in Stuttgart,

Baden-Württemberg, Germany. The company has 274,616 employees and gained a profit of 10,887 billion U.S. dollar with revenue of 147,257 billion U.S. dollars. Mexico is very important for the company's North American strategy, which can be proved by the fact that Mercedes-Benz produces its cars in Monterrey, Nuevo Leon, Mexico. According to the McKinsey Global Media Report 2013 Latin America provided the highest growth in expenditure for advertising, in 2012 the increase was 13.3 percent. The increasing investments of automotive companies are a reason for it - in 2011 the industry expanded its expenditures in advertising by 101 percent. A critical analysis of the MB's marketing strategy in Mexico is the purpose of this research paper. Since we are not able to cover all aspects of the marketing of MB due to the limitation of 10 to 15 pages for this paper, the study will be focusing on the following areas: sponsoring, social media, TV advertisements and magazine commercials. Thus, other areas of marketing like brand management or viral marketing will not be addressed. The products and services the company offers in Mexico will be mentioned. The marketing strategy of Mercedes-Benz México will be described and target groups will be defined. At the end of this paper we will state how MB can use its marketing in Mexico more efficiently in order to gain higher profits.
