The Paths of Heaven Haynes Publications

Excerpt from The Book of Woodcraft and Indian Lore For over twenty-five years I have been giving the talks and demonstrations that are gathered together in this book. Many Of them have appeared in magazines or in the birch-bark Roll that has come out annually for ten years. But this is the first time in which a comprehensive collection has been made Of the activities, customs, laws, and amusements that have been developed in my camps. Some of the related subjects I have treated at too great length for enclosure in one book. Of this class are the Life Histories Of Northern Animals, Animal Stories, Sign Language and Forestry, which appear as separate works. All are merely parts of a scheme that I have always considered my life work, namely, the development or revival of Woodcraft as a school for Manhood. By Woodcraft I mean outdoor life in its broadest sense and the plan has ever been with me since boyhood. Woodcraft is the first of all the sciences. It was Woodcraft that made man out Of brutish material, and Woodcraft in its highest form may save him from decay. As the model for outdoor life in this country I took the Indian, and have thus been obliged to defend him against the calumnies Of those who coveted his possessions. In giving these few historical extracts to show the Indian character, it must be remembered that I could give hundreds, and that prae tically all the travelers who saw with their own eyes are of one mind in the matter. Commissioner Robert G. Valentine, of the Indian Bureau, the first Indian Commissioner we have ever had who knew and sympathized with the Indians, writes after reading my manu script. 'Nations under God: The Geopolitics of Faith in the Twenty-First Century' is a timely contribution to the on-going discussion on religion and politics. The volume brings together over thirty leading scholars from a variety of disciplines such as political science, international relations theory, sociology, theology, anthropology, and geography. Utilising case studies, empirical investigations, and theoretical examinations, this book focuses on the complex roles that religions play in world affairs. It seeks to move beyond the simplistic narratives and overly impassioned polemics which swamp the discourse on the subject in the media, on the internet, and in popular nonfiction, by acting as a vessel for scholarly research on religion. The book presents a balanced analysis of the multifaceted roles taken on by religions, and religious actors, in global politics. Contributors: Stephen Dawson, Jodok Troy, Gertjan Dijkink, John A. "Murrow was a cut stone with an astonishing number of facets. He was born in a cabin with an outhouse, and behaved like an English squire, when he was not acting like a lumberjack, or an intellectual gadfly, or a cowboy, or a philosopher, or a daredevil, or a social crusader, or a raconteur, or a hermit. He could be found firing at metal ducks in a Times Square shooting gallery or shooting at grouse on the moors of an English country estate. He could spin dialect stories at a crowded bar or go for twenty-four hours without uttering a word to a house guest. He could send his son to the most prestigious schools, all the while telling the boy that college was not important to a successful life. He was either telling friends how humble his own origins were or insinuating into the conversation that his wife's ancestors came over on the Mayflower. He was a handsome man and an elegant dresser who bristled at anyone who made mention of his striking appearance. He was impervious, even oblivious, to the charms of most women, yet became involved with an aristocratic beauty and nearly destroyed his marriage. He spent his professional life in world capitals, yet liked to imagine that he would be happier at a small-

town college. He made a good deal of money, yet felt guilty about it and was so openhanded that it seemed at times that he was trying to give it all away. His pastimes were those of the he-man, yet he was a favorite of intellectuals. He had everything to live for, but he gambled his life dozens of times flying unnecessary combat missions. He could condemn a war, as he did in Korea, yet find it irresistible. He was modest, even flip, with colleagues about his physical bravery, but wrote letters to his parents presenting an almost maudlinly heroic self-image. He had every reason to be a happy man. He was not. I was drawn to his life because he was the preeminent figure in a profession that he essentially fathered. It is difficult for any thinking person not to be simultaneously mesmerized and repelled by the hold of mass communications over the modern world. Murrow's story is integral to that phenomenon." – from Joseph E. Persico's foreword to Edward R. Murrow: An American Original "If one is curious to find out what makes some people stand out above the rest, what makes a person a hero, the story is in Edward R. Murrow: An American Original. Murrow had talent, drive, intelligence, personality and vision... In comprehensive detail, with dramatic, well-told anecdotes and insight and perceptiveness, Joseph E. Persico describes a man of extraordinary natural gifts, human failings and stunning accomplishments... a well-organized and readable trip through Murrow's public and personal life... Mr. Persico is a diligent researcher who clearly won the confidence of the people he needed, most especially Murrow's widow, Janet... [He] is an able reporter and a fine storyteller whose taste, tact and skill have produced an appropriate biography... We should be grateful to this book for reminding us that television once had, and on occasion still has – when someone is willing to put up a fight – the surprising and the exceptional." – Joan Konner, The New York Times "Persico's distinguished and compellingly readable biography does not slight the stuff of the Murrow legend – his humble origins as the son of a North Carolina dirt farmer, his work as a lumberjack in the Pacific Northwest, his invention of himself as a dashing and dapper foreign correspondent, his pioneering broadcasts from London during the Blitz, his televised showdown with Joseph McCarthy. But, then, Persico goes far beyond the myth and shows us the real man – to his surprise, and perhaps to our own... the book is rich with intimate anecdotes, recounted by a sympathetic but unadoring biographer, drawing on first-person sources who were close enough to Murrow to detect the cracks in the plaster saint of journalism... Persico brings to Murrow the intellectual discipline of the historian, the polished and memorable prose of the accomplished biographer... a fast but substantial and satisfying read." – Jonathan Kirsch, Los Angeles Times "[T]he conjunctions of events that propelled [Murrow] into a career that didn't exist until he created it is an absorbing tale that Persico tells compellingly. He also has a keen eye for some of the other towering egos that came to populate the scene." – Anne Chamberlin, Washington Post "Persico has produced a work which reveals... Murrow's spirit and his passion for broadcast journalism... Persico tells us what drove this man to such professional heights. This is the work to read for insights into Murrow's personality, beliefs, feelings, foibles and frustrations. Persico's work is likely to become the most popular biography of Murrow. He interviewed the right people and his research was faultless and well-documented in the book... His writing is entertaining, revealing, and alive with characters, stories, suspense and humor... Persico causes the reader to share the emotions, the tensions, and the passions felt by Murrow and those close to him. Persico's is an excellent book to put on a reading list for students, either graduate or undergraduate, it is an especially appropriate selection for those studying the role of broadcasting in our society and the current debate over the public trusteeship of broadcast licensees." – Edward Funkhouser, Journalism Quarterly "A plain-spoken, essentially favorable, and near definitive appraisal of the accomplished, angst-ridden man who almost single-handedly made broadcast journalism a respectable profession. Persico secured the cooperation of Murrow's widow, Janet, and other family members; he also had access to private papers not available to previous biographers... As one result, the author is able to add telling detail to the largely familiar, often romanticized record of Murrow's career... Persico's diligent research has enabled him to offer a coherent, revelatory narrative that addresses Murrow's shortcomings and setbacks as well as his triumphs. His informed, evenhanded text clears the air of myth-makers' hyperbole without tarnishing in any significant way the achievements of a complex, charismatic broadcast pioneer." – Kirkus

This study investigates the poverty targeting of this program. It indicates that relative to other safety net programs in low income countries, social assistance in Albania is fairly well targeted to the poor.

"This practical and helpful volume details how clinicians can work through various and common challenges inherent to psychotherapy, whether within the context of individual, marital, or group settings. Chapters draw upon wisdom gleaned from the author's 48 years as a practicing psychiatrist to address topics such as using countertransference for therapeutic purposes; resistance, especially when it needs to be the focus of the therapy; and a prioritization of exploration over explanation and favor working in the here-and-now. Along with theory and clinical observations, Dr. Gans offers a series of "Clinical Pearls," pithy comments that highlight different interventions to a wide range of clinical challenges. These include patient hostility, the abrupt termination of therapy, treating a couple that's lost compassionate neutrality, and more. In addition to offering advice and strategies for therapists, the book also addresses foundational concerns like the matter of fees in private practice and the virtue of moral courage on the part of the therapist. Written with clarity, heart, and an abundance of clinical wisdom, *Challenging Moments in Psychotherapy* is essential reading for all clinicians, teachers, and supervisors of psychotherapy"--
