This textbook will help you learn all the skills you need to pass all Vehicle Electrical and Electronic Systems courses and qualifications. As electrical and electronic systems become increasingly more complex and fundamental to

vehicles, understanding these systems is essential for automotive technicians. For students new to the subject, this book will help to develop this knowledge, but will also assist experienced technicians in keeping up with recent technological advances. This new edition includes information on developments in pass-through technology, multiplexing, and engine control systems. In full colour and covering the latest course specifications, this is the guide that no student enrolled on an automotive maintenance and repair course should be without. Designed to make

learning easier, this book contains: Photographs, flow charts, quick reference tables, overview descriptions and step-by-step instructions. Case studies to help you put the principles covered into a real-life context. Useful margin features throughout, including definitions, key facts and 'safety first' considerations.

From an Emmy Award-winning comedy

writer: “An absolute must for every parent who needs to laugh so they don’t cry.” —Bunmi Laditan, author of *Confessions of a Domestic Failure* From the comedian behind the popular parenting blog *The Ugly Volvo* comes a refreshing spin on the baby milestone book. Instead of a place to lovingly capture the first time baby sleeps through the night, this book commemorates baby’s first poop explosion; first

time baby says a word you didn’t want her to say; and first time you forget the details of childbirth enough to consider having a second kid. Accompanied by distinctive illustrations, these one hundred rarely documented but all-too-realistic milestones provide comfort, solidarity, and comic relief for exhausted and terrified new parents.
