This report presents the results of the project Safe Future Inland Transport Systems (SafeFITS), which aims to develop a robust road safety decision-making tool to support the most appropriate road safety policies and measures to achieve tangible results. Road accidents constitute a major social problem in modern societies, accounting for more than 1 million accidents per year in EU-28 (2,900 per day), resulting in 1.4 million injuries and 26,000 fatalities (70 per day) (WHO, 2015). Road traffic injuries are estimated to be the eighth leading cause of death globally, and more than half of the people killed in traffic accidents are young adults aged between 15 and 44 years. In low-income and middle-income countries, the rates of road traffic injuries are twice those in high-income countries and still increasing. This can be partly attributed to rapid motorization in many developing countries, without any investment being made in road safety. Current trends suggest that, unless action is taken, traffic injuries will become the fifth leading cause of death by 2030, with the disparity between high-income and low-income countries further increased.

*Brothers of Iron* Cengage Learning

In the depths of the Great Depression a scrawny, dirt-poor Jewish kid with a seventh-grade education picked up a barbell and got hooked on weight training. Building his muscles gave him confidence and hope for a better life. He pledged to make the great, transforming power of strength training available to everyone and to give bodybuilding all the glory it deserved. The kid, Joe Weider, enlisted his younger brother Ben in his quest, and together the Weider brothers accomplished things much bigger than Joe's boyhood dreams. The little muscle magazine Joe started, working at his family's dining room table, grew into a publishing empire. From a backyard barbell business, Joe and Ben built equipment and food supplement companies each as big as Weider Publishing. And they transformed bodybuilding into a hugely successful sport, organized under one of the largest and best-run athletic federations in the world. The Weider brothers are heroes to bodybuilders and fans all over the world. They're heroes because they're revolutionaries. The Weiders changed the way people think about exercise, health, and what makes a body beautiful. They changed the world and *Brothers of Iron* tells their fascinating story.

*Birds of Prey (Mga Ibong Mandaragit)* is a story of the valiant fight for justice and social change during and after the Japanese occupation of the Philippines in World War II. Originally written in Tagalog by revered Philippine National Artist in Literature Amado V. Hernandez, and translated to English by Estelita Constantino-Pangilinan, this socio-political novel depicts the oppression of the Filipino people by both the brutal occupiers and their own corrupt leaders, while holding out hope for a vision of an egalitarian society. Inspired by Jose Rizal's novels, it is a sequel to *El Filibusterismo*. *Birds of Prey* follows Mando Plaridel, the guerrilla warrior who discovers his strength and greater purpose as he searches for and finds the treasure left behind by Rizal's protagonist Simoun. This historical fiction examines one country's past but its message resonates with the real and present struggles in societies around the world.
