Being a gearhead matters. Much as we love reading about the latest hypercar or money-no-object custom project, we believe vehicles owned - and loved - by gearheads like us are just as meaningful, if not moreso. Our readers are self-made. We buy vehicles for specific reasons and we learn how to maintain, modify, and repair them ourselves. (With a little help from our friends, of

course!) Everyone you meet in an issue of Gearbox Magazine is cool. If you spotted them in a parking lot, you could walk right up to them and strike up a conversation. And chances are you might end up lifelong friends. We're not looking to get rich and forget our roots. We're trying to make a few bucks so we can spend more time helping gearheads build high performance machines & lives. This issue isn't perfect, but neither are our daily drivers. We hope you'll grab a copy and tell a couple friends about us. Thanks for checking us out. GBXM-United. Better living through busted knuckles.

Greenhouse Gas Emission Standards and Corporate Average Fuel Economy Standards (US National Highway Traffic Safety Administration Regulation) (NHTSA) (2018 Edition)

The Law Library presents the complete text of the Light-Duty Vehicle Greenhouse Gas Emission Standards and Corporate Average Fuel Economy Standards (US National Highway Traffic Safety Administration Regulation) (NHTSA) (2018 Edition).

Updated as of May 29, 2018 EPA and NHTSA are issuing this joint Final Rule to establish a National Program consisting of new standards for light-duty

vehicles that will reduce greenhouse gas emissions and improve fuel economy. This joint Final Rule is consistent with the National Fuel Efficiency Policy announced by President Obama on May 19, 2009, responding to the country's critical need to address global climate change and to reduce oil consumption. EPA is finalizing greenhouse gas emissions standards under the Clean Air Act, and NHTSA is finalizing Corporate Average Fuel Economy standards under the Energy Policy and Conservation Act, as amended. These standards apply to passenger cars, light-duty trucks, and medium-duty passenger vehicles, covering model years 2012 through 2016, and represent a harmonized and consistent National Program. Under the National Program, automobile manufacturers will be able to build a single light-duty national fleet that satisfies all requirements under both programs while ensuring that consumers still have a full range of vehicle choices. NHTSA's final rule also constitutes the agency's Record of Decision for purposes of its National Environmental Policy Act (NEPA) analysis. This book
