Today, many Americans are concerned about global warming. According to a March 2007 MSNBC poll, 86% of Americans believe global warming is a critical or important threat, and according to an April 2007 ABC News/The Washington Post/Stanford University poll, 80% of Americans say they are willing to make changes

to help the environment, even if it means personal inconvenience.

This guide of 50 practical steps is a positive and uplifting presentation of a serious subject organized in a fun, easy-to-read format. Each step is a simple way you can help in the fight against global warming and feel good about being part of the solution to the current environmental crisis. Sample steps include: Determine Your Carbon Footprint Buy Green Energy Plant a Rooftop Garden Take an Eco-Vacation Check

U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market

shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous

iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.

Car and Driver The Revolution Will Be Televised, Retweeted And Liked August 2011 The London riots, coordinated by technology and social media, have brought the city to its knees. Buildings are burning. Shops are being looted. Homes and businesses are destroyed. Two

alternative leaders have emerged in an online battle for the future soul of London. Chester George - a masked man whose real identity is unknown, uses YouTube, punk rock and fierce intellect to spread the anarchy. Sadie Hobbs - Reality TV star and blogger. Loathed and controversial, she urges 'normal' society to fight back against Chester George and the 'feral rats' destroying the

city. The fate of investments, London hangs in the balance. And when the day of reckoning comes, hundreds of thousands of people, including sixteen-year-old Mack Walker, will descend upon the city for the final showdown and a day that London will never forget. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information

directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a

professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs. **50 Simple Steps to Save the Earth from Global Warming** Indexes the Times and its supplements.
