Little, Brown Books for Young Readers  
Hidden within age-old classic stories lie the hermetic teachings of alchemy and Freemasonry • Explains how the stages of the Great Work are encoded in both little known and popular stories such as Cinderella, Snow White, and Little Red Riding Hood • Reveals the connection between Mother Goose and important esoteric symbols of the Western Mystery tradition • Demonstrates the ancient lineage of these stories and how they originated as the trigger to push humanity toward higher levels of consciousness In his *Mystery of the Cathedrals*, the great alchemist Fulcanelli

revealed the teachings of the hermetic art encoded in the sculpture and stained glass of the great cathedrals of Europe. What he did for churches, his disciple Bernard Roger does here for fairy tales. Through exhaustive analysis of the stories collected by the Brothers Grimm, Perrault, and others, Roger demonstrates how hermetic ideas, especially those embodied in alchemy and Freemasonry, can be found in fairy tales, including such popular stories as Cinderella, Snow White, Sleeping Beauty, and Little Red Riding Hood as well as the tales attributed to “Mother Goose.” The goose has long been an important esoteric symbol in the Western Mystery

tradition. The stories told under the aegis of Mother Goose carry these symbols and secrets, concealed in what hermetic adepts have long called “the language of the birds.” Drawing upon the original versions of fairy tales, not the sanitized accounts made into children’s movies, the author reveals how the tales illustrate each stage of the Great Work and the alchemical iterations required to achieve them. He shows how the common motif of a hero or heroine sent in search of a rare object by a sovereign before their wishes can be granted is analogous to the Masonic quest for the lost tomb of Hiram or the alchemist’s search for the fire needed to perform the Great

---

Work. He also reveals how the hero is always aided by a green bird, which embodies the hermetic understanding of the seed and the fruit. By unveiling the secret teachings within fairy tales, Roger demonstrates the truly ancient lineage of these initiatory stories and how they originated as the trigger to push humanity toward higher levels of consciousness.	life throughout the world, it is the fairy tale. Yet we still have great difficulty understanding how it originated, evolved, and spread--or why so many people cannot resist its appeal, no matter how it changes or what form it takes. *Memoirs Aren't  
Fairytale*s Farrar  
Straus and Giroux  
Most of today's  
familiar fairy tales  
come from the  
stories of Charles

Perrault, the  
Brothers Grimm,  
and Hans  
Christian  
Andersen, but this  
innovative study  
encourages us to  
explore the  
marvelous tales of  
authors from the  
early modern  
period Giovanni  
Straparola,  
Giambattista  
Basile, Madame  
Marie-Catherine  
D'Aulnoy, and  
others whose  
works enrich and  
expand the canon.  
As author Jo  
Eldridge Carney  
shows, the queen  
is omnipresent in  
these stories, as  
much a hallmark  
of the genre as  
other familiar  
characteristics  
such as the

---

number three, magical objects, and happy endings. That queens occupy such space in early modern tales is not surprising given the profound influence of so many powerful queens in the political landscapes of early modern England and Europe. Carney makes a powerful argument for the historical relevance of fairy tales and, by exploring the dynamic intersection between fictional and actual queens, shows how history and folk literature

mutually enrich our understanding of the period.

*Digging the Past*  
Marni Mann  
This book is a

---

journey through the fairy-tale wardrobe, explaining how the mercurial nature of fashion has shaped and transformed the Western fairy-tale tradition. Many of fairy tale's most iconic images are items of dress: the glass slippers, the red capes, the gowns shining like the sun, and the red shoes. The material cultures from which these items have been conjured reveal the histories of patronage, political intrigue, class privilege, and sexual politics behind the most famous fairy tales. The book not only reveals the sartorial truths behind Cinderella's lost slippers, but reveals the networks of female power woven into fairy tale itself. *The Oxford Companion to Fairy Tales* Watkins Media Limited Colourfully illustrated, humorous picture book for young children. The reader is asked to find the pictures corresponding to the well-known fairytale characters described in the text.

Mother Goose

introductory essays on the history of interpretation and translation, before retranslating each of the *Histoires ou Contes* with the aim to prove that if Perrault's is a classical frame of reference, these tales nonetheless exhibit strikingly modern strategies. Designed for scholars, their classrooms, and other adult readers of fairy tales, *Mother Goose Refigured* promises to inspire new

academic interpretations of the *Mother Goose* tales, particularly among readers who do not have access to the original French and have relied for their critical inquiries on traditional renderings of the tales.

*Fabulous Fairies*  
*Virago*  
Winter is not coming. Winter is here. As unique and beautifully formed as a snowflake, each of these fifteen stories spins a brand new take or offers a fresh take on an old favorite like Jack Frost, The Snow Queen, or The Frof

King. From a drafty castle to a blustery Japanese villiage, from a snow-packed road to the cozy hearth of a frammhouse, from an empty coffee house in Buffalo, New York, to a cold night outside a university library, these stories fully explore the perils and possibilities of the snow, wind, ice, and bone-chilling cold that traditional fairy tale characters seldom encounter. In the bleak midwinter, heed the irresistible call of fairy tales. Just open these pages, snuggle down, and wait for an icy blast of fantasy to carry you away. With all new stories of love, adventure, sorrow, and triumph.

Star Wars and the  
Triumph of Geek  
Culture

Hachette  
Children's Books  
Australia

"This book is about seventeenth-century antecedents of modern concerns with food and the environment: depletion of the earth's resources, agricultural innovation and its ill effects on the environment, and nostalgia for an earlier and simpler time"--

Lidiya Foxglove

"A.D. Jameson takes geeks and non-geeks alike on a surprising and insightful journey through the science fiction, fantasy,

and superhero franchises that now dominate pop culture. Walking us through the rise of geekdom from its underground origins to the top of the box office and the bestseller lists, Jameson takes in franchises such as The Lord of the Rings, Guardians of the Galaxy, Harry Potter, Star Trek, and in particular, Star Wars--as well as phenomena like fan fiction, cosplay, and Youtube parodies. Along the way, he blasts through the clichés surrounding geek culture: that its fans are mindless consumers who

will embrace all things Spider-Man or Batman, regardless of quality; or that the popularity and financial success of Star Wars led to the death of ambitious filmmaking. A lifelong geek, Jameson shines a new light on beloved classics, explaining the enormous love (and hate) they are capable of inspiring, while exploding misconceptions about how and why they were made. I Find Your lack of Faith Disturbing tells the story of how the geeks have inherited the

---

earth."--Page [2] of cover.	and ripely bawdy stories from countries all around the world- from the Arctic to Asia - and no dippy princesses or soppy fairies. Instead, we have pretty maids and old crones; crafty women and bad girls; enchantresses and midwives; rascal aunts and odd sisters. This fabulous celebration of strong minds, low cunning, black arts and dirty tricks could only have been collected by the unique and much-	Carter. Illustrated throughout with original woodcuts. <i>Women's Fairy Tales in Seventeenth-century France</i> OUP Oxford
<i>Fairy Tale Queens</i> 10 Fabulous Fairy Tales for 4-8 Year Olds (Perfect for Bedtime & Independent Reading) (Series: Read together for 10 minutes a day) Once upon a time fairy tales weren't meant just for children, and neither is Angela Carter's <i>Book of Fairy Tales</i> . This stunning collection contains lyrical tales, bloody tales and hilariously funny	missed Angela	Responding to thirty years of feminist fairy-tale scholarship, this book breaks new ground by rethinking important questions, advocating innovative approaches, and introducing woman-centered texts and traditions that have been ignored for too long. <b>The American Heritage</b>
