James Taylor remembers very well the disappointment among his petrol-head friends when the XJ-S was announced in 1975. It was not a replacement for the legendary E-type; its colours were uninspired; and its interior was drab. All credit, then, to those people at Jaguar who truly believed in the car and, over a period of nearly 20 years, turned the ugly duckling into a swan. From the moment the XJ-S HE arrived in 1981, there seemed to be renewed hope, and from then on, the car went from strength to strength to become the much-admired grand tourer it always should have been. The book contains a timeline of the key events in the history of the XJ-S and an overview of the evolution of the XJ-S from the XJ27 prototype. Packed with details it gives UK showroom prices through the year and sales in the US by year. Of great interest to all motoring and Jaguar enthusiasts, it is superbly illustrated with 192 colour and black & white photos. James Taylor has been writing professionally about road transport since the late 1970s, his primary interest is in those models that made the British motor industry great.

Fairchild Republic A-10 Thunderbolt II Haynes Manuals N. America, Incorporated

Global Vehicle Reliability promotes an understanding of the use of predictive models, failure analysis, and modelling techniques. The chapters, written by experts from Jaguar, Ford, independent industry consultants, and respected academics, emphasize the need to correlate life-testing to real world usage profiles. In an increasingly competitive marketplace, reliability and predicting failure correctly can provide an edge, or mean commercial disaster if it is not managed well. Global Vehicle Reliability will be of interest to automotive engineers involved in reliability testing, designers, manufacturers, component suppliers, testing houses, and key automotive decision makers. Vehicles are now global in their brand marketing, manufacture, and development. This international spread and network of research, development, supply, and assembly provides real challenges in the maintenance of high standards of reliability. The global vehicle has to be able to perform reliably and be easy to maintain in all the world-wide territories that the manufacturer is selling into. Vehicles are becoming increasingly complex and the purchaser expects better

and better reliability. The onus is on the manufacturers, their suppliers, the testing houses, and the whole international network of brand developers to meet these expectations.

Saving Jaguar John Wiley & Sons

This book tells the story of how John Egan gradually overcame

the odds and, piece by piece, rebuilt this great company, winning over the workforce, the overseas dealers and, most important of all, the customers. Working with Margaret Thatcher and her Government, Egan and his team of managers overcame every obstacle, every set-back, every challenge. Again and again, it looked impossible. Yet using innovative techniques, intelligence, eloquence, openness, motor racing and much more, they saved this most charismatic company which has created some of the finest and most loved motor cars of all time. It is an amazing story that will appeal equally to car enthusiasts, those in business and readers interested in social history.

Boys' Life Crowood Press

The compact Jaguar saloons of the 1950s and 1960s were some of the most popular performance cars of their day and now are considered one of the most collectable of classics. In this fascinating, extensively illustrated book, Nigel Thorley describes the year by year history and development of the Jaguar Mark 1 and Mark 2 models. From the original design concept in the early 1950s, through to the final variants produced at the end of the 1960s, it 's all here. With a fabulous collection of period and specially commissioned photographs and curiosities and anecdotes uncovered along the way, Jaguar Mark 1 & 2 represents a feast for car lovers, and Jaguar owners.

The Jaguar XJS was one of the finest grand touring cars of its era even if, when launched in 1975, it raised a few eyebrows. It survived the British Leyland days, Jaguar's privatization and the takeover by Ford, and is now

much in demand as an affordable and practical classic car. This all-color book, now available in paperback, covers the full road car and competition history as well as practical matters such as maintenance and modification. It is essential reading for all Jaguar enthusiasts.

Acceleration and Passing Ability Haynes Publishing UK

The Jaguar XJR-9 is the Group C sports racing car built by Jaguar for the 1988 racing season, winning on its debut at the Daytona 24 Hours, and going on to take victory at the Le Mans 24 Hours (Jaguar's first win at the French classic since 1957). The car also took Jaguar to victory in the 1988 Teams' World Championship, and Drivers' World Championship with Martin Brundle. Works cars ran in the American IMSA Championship (running in Castrol livery), as well as the World Sports Car Championship. The XJR-9 is one of the most evocative sports-racing cars of the 1980s, thanks to its success, instantly recognizable Silk Cut livery, and unforgettable V12 engine note. This Manual tells the complete design and engineering story of the XJR series of sports-racing cars, focusing on the XJR-9, and featuring extensive input from many of the engineers and drivers involved.

Jaguar XJ6 1968 thru 1986

Dubbed 'Warthog' - or just 'Hog' - by those who fly and maintain it, the Fairchild Republic A-10 Thunderbolt II is the world's undisputed close air support attack jet. As tough as it is ugly, it has built a fearsome reputation as a tank buster and infantry killer in conflicts around the globe, and its GAU-8 Avenger 30mm cannon strikes fear into the hearts of all unlucky enough to be on the wrong side of it. The A-10 was clutched from the jaws of retirement by the 1991 Gulf War. At the time of the conflict, the United States Air Force was making plans to shed its A-10 fleet, citing obsolescence and redundancy. As the ensuing conflict showed, nothing could have been further from the

truth, and no other airframe could have provided the US and Coalition commanders with the sort of forward air control, close air support, combat search and rescue, and tank busting capabilities that the Hog did. Since then the A-10 has delivered capabilities to battlefield commanders in the Balkans (1990s), Afghanistan (2001 onwards) and the second Gulf War (2003 onwards), and Libya (2011). A-10s have flown around 11 per cent of Operation Inherent Resolve sorties (striking IS targets in Iraq) since combat operations began in August 2014.
