The Mini, now an emblem of the Swinging Sixties, was in fact the product of an age of austerity and shortage, a simple design intended to make motoring more accessible and affordable for the average family. Ironically, it would become something very different: a modern, classless style icon that appealed across the boundaries of social status, age and gender and lent its name to everything from fashion to furniture. Using illustrations from the archives of the British Motor Industry Heritage Trust, Gillian Bardsley here tells the Mini's story, from the inspired conception of designer Alec Issigonis, through the car's shaky infancy and up to its glorious heyday when it was beloved of film stars, royalty and the public, as well as having a prominent presence in motorsport.

Mini celebrates 60 amazing years of this iconic car, from its revolutionary introduction to the popularity of its new-generation models. The first two-door Mini, introduced in 1959 and built until 2000, revolutionized automotive design with its innovative front-wheel-drive layout that made the car appear bigger on the inside than the outside. In 1999, the Mini was voted the second most influential car of the 20th century, behind the Ford Model T. Designed for British Motor Corporation (BMC) by Sir Alec Issigonis and manufactured in England, Australia, Spain, Belgium, Chile, Italy, Portugal, South Africa, Uruguay, Venezuela, and Yugoslavia, the Mini was as successful in competition as it was on the street, winning the Monte Carlo Rally four times from 1964 through 1967. Originally built by BMC, the Mini's later parent company, Rover, was acquired by BMW in 1994. In 2000, BMW sold most of the Rover Group but retained the Mini brand. The last and 5,387,862nd original Mini rolled off the production line in October 2000. In July 2001, BMW launched production of the new-generation of Mini which was soon joined by Countryman, Clubman, convertible, Cooper Works, and numerous special editions. Nearly 20 years later, the new Minis remain as popular as the original from 1959.

The MGB was a great British success story, a product largely conceived, designed and produced by a small team of dedicated people who genuinely cared about their work. Of course, the MGB came from a proud, successful sports car tradition, and the model it replaced - the revolutionary aerodynamic MGA - had been an unprecedented success - so the new car had big shoes to fill. Launching in 1962 and in production for eighteen years, the MGB became one of the most successful sports cars the world has ever known. This book describes how the MGB arose principally from the ideas of one man, MG's Chief Engineer, Syd Enever, how it was designed and developed, how it survived and thrived, and how it became the classic car still highly regarded today. There have been many previous books about the MGB, and the related MGC and V8 variants, but MGB - The superlative MG reaches a new level of detail together seasoned with fresh insight. David Knowles has been researching and writing about the MGB for more than thirty years. Prepare to be surprised at some of the stories you will have never read before, and new twists on some you possibly thought you knew well.

Paddy Hopkirk, winner of the 1964 Monte Carlo Rally, is one of Britain's best-known rally drivers and made the motorsport big time in Mini Coopers. A disarmingly modest man, Paddy originally approached BMC with the plea, I do want to drive cars which are capable of winning rallies outright, even if I'm not. From winning at a 1955 St Patrick's Day Trial in a VW Beetle to the 1990 Pirelli Classic Marathon won in a Mini Cooper S, his glittering career is described in all its glory, with lots of tales of amusing escapades along the way.
