Mini celebrates 60 amazing years of this iconic car, from its revolutionary introduction to the popularity of its new-generation models. The first two-door Mini, introduced in 1959 and built until 2000, revolutionized automotive design with its innovative front-wheel-drive layout that made the car appear bigger on the inside than the outside. In 1999, the Mini was voted the second most influential car of the 20th century, behind the Ford Model T. Designed for British Motor Corporation (BMC) by Sir Alec Issigonis and manufactured in England, Australia, Spain, Belgium, Chile, Italy, Portugal, South Africa, Uruguay, Venezuela, and Yugoslavia, the Mini was as successful in competition as it was on the street, winning the Monte Carlo Rally four times from 1964 through 1967. Originally built by BMC, the Mini's later parent company, Rover, was acquired by BMW in 1994. In 2000, BMW sold most of the Rover Group but retained the Mini brand. The last and 5,387,862nd original Mini rolled off the production line in October, 2000. In July 2001, BMW launched production of the new-generation of Mini which was soon joined by Countryman, Clubman, convertible, Cooper Works, and numerous special editions. Nearly 20 years later, the new Minis remain as popular as the original from 1959.

Mr Big Healey Penguin

Simple, cost-effective, basic and reliable tips to ensure any rally car stands a chance of reaching the finishing line. If you are planning a road-based rally, don't even think of leaving home before reading this book and implementing the tried and tested mods it describes so well.

[BMW MINI](#) Bloomsbury Publishing

The Mini, now an emblem of the Swinging Sixties, was in fact the product of an age of austerity and shortage, a simple design intended to make motoring more accessible and affordable for the average family. Ironically, it would become something very different: a modern, classless style icon that appealed across the boundaries of social status, age and gender and lent its name to everything from fashion to furniture. Using illustrations from the archives of the British Motor Industry Heritage Trust, Gillian Bardsley here tells the Mini's story, from the inspired conception of designer Alec Issigonis, through the car's shaky infancy and up to its glorious heyday when it was beloved of film stars, royalty and the public, as well as having a prominent presence in motorsport.

[The New Encyclopaedia Britannica: Micropaedia](#) (10 v.) Motorbooks

Produced from 1959 until 2000, the classic Mini is loved by millions of owners, previous owners and enthusiasts. The Mini's creator, Alec Issigonis, was given a free hand to make a proper small car and his innovative design not only redefined the family car, but also started a revolution as a performance car. Classic Mini Specials and Moke explores the diverse range of vehicles that used the Mini shape, as well as the only variation actually designed by Alec Issigonis, the Mini Moke. In addition to the famous race and rally cars, coachbuilt conversions and highly modified saloons and commercials, Keith Mainland looks at overseas Mini and Moke production and the many factory-produced limited edition Minis. There is also advice about buying and owning your own special Mini. Fully illustrated with 300 colour photographs.

[LIFE](#) Veloce Publishing Ltd

This little gem of a book is a repository of intriguing, fascinating, obscure, strange and entertaining facts and trivia about Britain and all the things that have made it great. Within this volume are such themes as myths and legends, traditions and customs, great Britons and great British places, while not forgotten is a celebration of the best of British music, food, entertainment and sport and a host of topics that explore the more eccentric and eclectic people and things that contribute to and define Great Britain. Despite being a relatively small collection of islands, there is always something new, fascinating, frivolous or even bizarre to discover about Great Britain - you will find much of it here. Did You Know? There is no location in Britain which is more than 741.2 miles from the sea. The first person in Britain to be convicted of speeding was Walter Arnold of Kent, who in 1896 was fined 1s plus costs for driving at a breakneck 8mph. Britain has some thoroughly unusual pub names, including: The Bucket of Blood in Phillack, Cornwall, The Honest Lawyer in Folkestone and The Old Thirteenth Cheshire Astley Volunteer Rifleman Corps Inn in Stalybridge - which also enjoys the honour of having Britain's longest pub name. Her Majesty Queen Elizabeth II is a well-known corgi fan. She has owned no fewer than 30 during her reign, the first being Susan, who was given to her in 1944.

The R-Series BMW MINI had a lot to live up to. Launched in 2001, it was riding in the wake of the classic 1959-2000 Mini. At the time, BMW were going to have to create something as special and innovative as its longstanding predecessor in order to silence the naysayers. And they did. Since its launch in 2001, BMW's

modern MINI has become the pinnacle of small yet funky family cars in the premium small (and sometimes not so small) car segment. Now in its third generation, having unveiled the new F-Series in 2014, BMW MINI offers 3- and 5-door hatchback models and convertibles, the estate Clubman, the five-door Countryman, the Coupe, the Roadster and the three-door crossover Paceman. MINI enthusiast and motoring journalist Sophie Williamson-Stoothert explores the journey from 1959 to the present day, covering design and development of the new MINI, launch and reception by the press, its many model variations and special editions, and an owner's and buyer's guide. Superbly illustrated with 170 colour photographs.

The very beginnings of today's great sport of rallying

[The Last Works Minis](#) Keith Martin

The Mini, the car of the 20th Century and still in motorsport in 1997, 35 years after its 1st event. This is its story. In the 60s the BMC works teams using Minis were virtually unstoppable in their quest for recognition in the big world of rallying, they succeeded where others had failed and the BMC works teams were at the time probably the envy of the motorsport world. They introduced to the enthusiast the Special Tuning or ST as it was later known, a range of tuning products that the public could buy and fit to their own cars thus using the very same parts that the works team were using. Sadly the competition department was wound down and the ST finally went the same way in 1980. Imagine the excitement that hit the media when in the Autumn of 1993 Rover officially announced that they would fund the build of several cars to once again campaign the world famous Rallye Monte Carlo. Although they were not works cars, the large contribution of materials and money to the project it was regarded as tantamount to funding a works team, especially when Paddy Hopkirk was named as one of the drivers. It was this that started 4 years of Works backed minis to varying degrees, culminating in 1996 to a full works backed team of 2 cars and a full campaign of rallies and races for the three years. Typically the Mini of the 90s, similarly to the Mini of the 60s, carried with it a fair degree of controversy. Over the next four years there was plenty of it, with money being diverted by the sponsor from one team to another, one car even being stolen and top rallying stars carrying out secret test sessions, being just a few examples. All of this using cars that were designed way back in the 50s and even still using the same basic design of engine and gearbox against competitors who were using cars designed over thirty years later with modern engines and transmissions. This book highlights how the use of fuel injection, distributor-less ignition, six speed gearboxes and modern tyres all helped to bring the mighty mini once again to the foreground of modern rallying and racing. In 1996 the ST range of competition parts was re-introduced, with the parts coming from the latest 1996 build of works cars but once again in mid 1997 the project was pulled amid secrecy, sackings and bitter recriminations that even to this day have prevented the authors from being able to speak to those that were involved behind the scenes at the end of the line for the Last Works Minis. With many unseen photos of the cars development, copies of Rovers internal documents, copy pages from the road books of top rallies, all of this in colour this book truly brings this previously untold story to life.

This book's title sums up its purpose. Anatomy of the Classic Mini is the result of years of research, and documents the many variations of the same components, explaining which model and date each is for. An essential reference book for all restorers of classic Minis!

[Alpine Trials & Rallies](#) Herridge & Sons

The MGB was a great British success story, a product largely conceived, designed and produced by a small team of dedicated people who genuinely cared about their work. Of course, the MGB came from a proud, successful

sports car tradition, and the model it replaced - the revolutionary aerodynamic MGA - had been an unprecedented success - so the new car had big shoes to fill. Launching in 1962 and in production for eighteen years, the MGB became one of the most successful sports cars the world has ever known. This book describes how the MGB arose principally from the ideas of one man, MG's Chief Engineer, Syd Enever, how it was designed and developed, how it survived and thrived, and how it became the classic car still highly regarded today. There have been many previous books about the MGB, and the related MGC and V8 variants, but MGB - The superlative MG reaches a new level of detail together seasoned with fresh insight. David Knowles has been researching and writing about the MGB for more than thirty years. Prepare to be surprised at some of the stories you will have never read before, and new twists on some you possibly thought you knew well.

How to Build a Successful Low-Cost Rally Car The Crowood Press

Paddy Hopkirk, winner of the 1964 Monte Carlo Rally, is one of Britain's best-known rally drivers and made the motorsport big time in Mini Coopers. A disarmingly modest man, Paddy originally approached BMC with the plea, I do want to drive cars which are capable of winning rallies outright, even if I'm not. From winning at a 1955 St Patrick's Day Trial in a VW Beetle to the 1990 Pirelli Classic Marathon won in a Mini Cooper S, his glittering career is described in all its glory, with lots of tales of amusing escapades along the way.
