and Inner Peace
In this inspirational work, beloved best-selling author Dr. Wayne W. Dyer shows you how to restore balance in your life by offering nine principles for realigning your thoughts so that they correspond to your highest desires. Imagine a balance scale with one end weighted down to the ground, and the other end—featuring the objects of your desires—sticking up precariously in the air. This scale is a measurement of your thoughts. To restore the same balance that characterizes everything in our universe, you have to take up the weighty thoughts so that they match up to your desires. The seasons reflect the overall harmony of life. For example, winter passes and the blossoms emerge. This is balanced by a need to have the trees rest, so autumn arrives on time and helps the trees ready themselves for another period of repose. This book is dedicated to the idea that we 're a vital component of this creative process and have within ourselves the wherewithal to create all that we want if we recognize and revise out-of-balance thoughts.

Everything no one will tell you about being an artist Nobody Knows What They 're Doing is an honest guide to the creative life for artists of all kinds. Lee Crutchley, author of How to Be Happy (Or At Least Less Sad), skips the platitudes, positive affirmations, and guarantees of success; he'll never ever tell you to just Do What You Love. Instead, Crutchley discusses the things nobody else is talking about—that, frankly, your work sucks (but that 's ok because everyone else's does too), that making bad art is worth it, and so much more. In a world desperate for a glimpse of authenticity, Nobody Knows What They 're Doing is a breath of fresh air that reveals the truths hiding between the lines of Instagram-friendly aphorisms and behind the words of the most inspirational TED talks. An honest look at the reality of creativity and the joy and difficulty of crafting good (and bad) art, this book belongs in the hands of every exhausted creative, every starry-eyed dreamer, and every artist who is trying to make their way in the world—and keep a roof over their head while they do it.

WHAT EXPERTS ARE SAYING: "Totally new, totally informative, and totally entertaining! 'I Found the Golf God,' will do wonders for your confidence and for your enjoyment of the game." -- Dan Poppers, Publisher GOLF NEWS Magazine "When it comes to what counts, it's not what you know, it's what you do. Don't just read this book, do the contents of the book." -- Chuck Hogan, Master Golf Instructor and Sports Psychologist "Dori O'Rourke brings to the attention of the golf world those learning concepts and attitudinal insights that are shaping the styles of professional people from other disciplines. Using these methods will make better players and happier participants." -- Gary Wren, PGA Master Professional and Multiple Golf Author ***** **NEW "LETTER TO MY READERS"** This special 20th Anniversary Edition also includes a 2011 "Letter to My Readers," where Coach Dori shares some wonderful stories and insights from the "Golf God's" remarkable 20-year history. Here are a few excerpts: WOW! A lot has changed in the past 20 years. When I first published this book in February, 1991, I didn't have a web address or a cell phone. Home computers were just starting to gain popularity and I hadn't quite turned 30 yet. ... Surprisingly, one thing that hasn't changed are the 10 Secrets for Golfing Success. They are still just as valid today as they were when I originally wrote about them 20 years ago. ... I Found the Golf God, 10 Secrets for Golfing Success was the first book I ever wrote, so it will always be very special to me. Based on the letters and comments I've received through the years, it's been a special book to dozens of other people, as well - both golfers and non-golfers alike. I've received letters from golf professionals giving the book credit for their first big tournament wins. I've received phone calls from men and women in all walks of life telling stories of how the book changed their lives (not just their golf games). I've even had several non-golfers get "mad" that it was a golf book and not a life improvement book, saying they almost hadn't read it because of that. One of the most magical moments for me was receiving a handwritten note from tennis legend, Martina Navratilova, stating how the concept of "target golf" had helped her golf game. Another was when international self-help author and success coach, Anthony Robbins, happened to come into a bookstore where I was doing a book signing, and asked me to autograph a copy of I Found the Golf

God to his friend, Ken Blanchard (author of The One Minute Manager), as a birthday gift. ... I Found the Golf God sold nearly 10,000 copies in its first year, going to print three times in the first nine months. It's been used as a sales training tool, as a textbook for golf colleges, as a tournament gift bag item, and more. GOLFERS AND NON-GOLFERS ALIKE LOVE I Found the Golf God! With years and years of rave reviews from men and women golfers of all levels, this timeless golf and life improvement book is sure to help you improve your golf swing and your game!

How our collective intelligence has helped us to evolve and prosper Humans are a puzzling species. On the one hand, we struggle to survive on our own in the wild, often failing to overcome even basic challenges, like obtaining food, building shelters, or avoiding predators. On the other hand, human groups have produced ingenious technologies, sophisticated languages, and complex institutions that have permitted us to successfully expand into a vast range of diverse environments. What has enabled us to dominate the globe, more than any other species, while remaining virtually helpless as lone individuals? This book shows that the secret of our success lies not in our innate intelligence, but in our collective brains—on the ability of human groups to socially interconnect and learn from one another over generations. Drawing insights from lost European explorers, clever chimpanzees, mobile hunter-gatherers, neuroscientific findings, ancient bones, and the human genome, Joseph Henrich demonstrates how our collective brains have propelled our species' genetic evolution and shaped our biology. Our early capacities for learning from others produced many cultural innovations, such as fire, cooking, water containers, plant knowledge, and projectile weapons, which in turn drove the expansion of our brains and altered our physiology, anatomy, and psychology in crucial ways. Later on, some collective brains generated and recombined powerful concepts, such as the lever, wheel, screw, and writing, while also creating the institutions that continue to alter our motivations and perceptions. Henrich shows how our genetics and biology are inextricably interwoven with cultural evolution, and how culture-gene interactions launched our species on an extraordinary evolutionary trajectory. Tracking clues from our ancient past to the present, The Secret of Our Success explores how the evolution of both our cultural and social natures produce a collective intelligence that explains both our species' immense success and the origins of human uniqueness.

The Napoleon Hill Foundation In order to achieve desired results a simple two-step process must be followed: Thought + Action = Success As a student of Dr. Napoleon Hill for many years, I know that his philosophy works best when it is observable and measurable. It is not always easy to take action, but without action there is no success. Reflect on this for a moment. Great intentions never measure up to the smallest action. However, the tiniest action begins to build a momentum that culminates in your desired success if you build on the previous action daily. 10 Success Secrets pairs Dr. Hill ' s philosophy with actions that will move you toward success. I suggest that you try a few, keep a log, and watch your success rate grow. Without the action step, you are missing the master key to your dreams. First, chart your course; next, plan your method of travel, and third, step into the journey and begin! As you progress, you can then evaluate what actions work best for you. Look at this book as your treasure map. When you follow it to your destination, you will be rewarded with finding the treasure you seek. To your ultimate and lasting success! —Judith Williamson, Director, Napoleon Hill World Learning Center, Purdue University Calumet
