You've Never Seen What You've
Always Needed to Know - Until
Now Invisible forces are at
work. They push and shove on
everything you buy or sell.
They affect every concept you
want to take to market, all the
suppliers you'll deal with, and
every customer you'll ever see.
To be successful, you need to
understand them. See them in
detail in ways not possible
with other methods.
Hypernomics: Using Hidden
Dimensions to Solve Unseen
Problems discovers that markets
behave according to previously
unknown laws set by the buyers

and sellers within them. It
reveals those rules and how to
detect, describe, and deploy
them to your advantage. It
doesn't change economics so much
as reveal it. It's like a
microscope looking at pond
water, a telescope tilted to the
sky, sonar scanning the bottom
of the ocean. Hypernomics lets
you see into markets in ways you
can't with the unaided eye.
Sailors never navigate without a
map. You shouldn't either, since
your ship could wind up on the
rocks. Hypernomics gives you the
means to create market maps that
show you where they have
openings and how to fill them by

giving customers what they want, don't have, and can afford. It finds their thresholds and limits and responses to every possible feature in any product you can offer. The interactions Hypernomics describes have been with us since the dawn of humanity. Now you can finally see them and enjoy the advantages your competitors do not have. Validated by 13 published papers, multiple awards, a patent, and customers such as NASA, Lockheed Martin, Virgin Galactic, and a restaurant down the street, only Hypernomics gives you the ability to solve problems as varied as How could a restaurant increase revenue by 25% by rearranging seating? How do you find, describe, and capitalize on open spaces in your market? What happens when an NFL player decreases his forty-yard dash time by a quarter of a second? If you tried to exceed a market's limitations, how could you lose \$1B? How do markets change over time? Know what you need to. Discover Hypernomics.
