Think about your writing
from a new perspective
and learn to tell a story in
the most effective way
possible with this flash
fiction workbook. Popular
with creative writers
around the world, flash
fiction is an ultra-short
story format (usually
1,000 words or less) that
distills a narrative into its
most economic and
impactful form. In this lay-
flat paperback workbook
you'll find 101 flash fiction

writing prompts, each crafted to inspire an incredible variety of very short stories. Some prompts instruct you to focus on setting or developing a specific character. Other prompts ask you to play with story structure, to begin at the end or jump right into the middle of the action. You are also encouraged to bring the journal to different locations (a coffee shop or a museum) and take story cues from your surroundings. With helpful writing tips and just the right amount of space to write, this journal is the perfect tool to jump-start a flash fiction writing practice.

Plenty of writing advice out there is focused on the nuts and bolts of writing - how to do it, when, how to market it and where, etc. But this is not that sort of book. If you want to learn to write more compellingly, with more skill and expertise, you can do it, easily. The really tricky bit, though, is understanding why. Uncover this why for yourself and you get in touch with the inexhaustible engine of your creativity. The human core of why we bother to create at all. Get to know this root well and you will not

need gimmicky books full of writing prompts to blast away your writer's block. You will not need "inspiration" or 31 awesome tips and tricks. When you were a baby, something made you open your mouth and speak. Understand the thing that inspired you to do this, and you're more than half way to being the creative, productive and generative human being you were destined to be. When you were a tiny baby, your head was full of mostly nothing and the world was new and unknown. You barely had the skill to move yourself around the environment, and you most definitely lacked the skill to do what

humans are most know for - communication. As you grew and developed, though, something strange started to happen. The people around you, the things in your world - you began to understand that they could be reached. That in your infant isolation there was still a way to reach out and touch someone else's experience. You saw all around you evidence of this magical skill that you had yet to develop: language. Since before we were old enough to understand it, we've tried to master this almost god-like ability to shape symbols and concepts, reach into the mind of someone else and affect their hearts

and minds, to bring about changes in the world, to connect and understand and share with another human being. At the root of all creative expression is a deep, inborn and very human desire to be heard and understood. For the writers among us, the urge to communicate more clearly, more beautifully, and in new ways never really left us. With the right words, new worlds can be created, new ideas can be incubated and grown, great heights and depths can be reached. Every brilliant idea had its first home in the written or spoken word, and if you are a writer or aspire to be one, you most likely understand this power better than anything. Ask yourself this simple question: why write at all? Once you've managed to answer this question for yourself you'll have found something that will be incredibly valuable to your writing career, wherever it takes you: your purpose. Tapping into the deep roots of why you are compelled to write at all is a brilliant way to unlock your true motivations and your ultimate reason for that urge to take what's in your head and put it out there in the world. Remember, all change and growth begins with the creativity of imagining something different. It's

quite likely that opening more!
the door on your innate creativity will invite all sorts of new skills and insights into your life, not just the verbal ones. This book will address: How to tap into your creative self and give your writing a heart Finding your own style and voice Creativity exercises How to develop your writing habit and be a writer 24/7 Ineffective vs. effective writing How to set up a writing community Writer's block, and why you should love it! Common writing myths and why they aren't true Writing blunders that you want to avoid The editing process Launching your work How to handle rejection And much more!
