Smith Wigglesworth (1859-1947), was a British evangelist who was important in the early history of Pentecostalism. Wigglesworth believed that healing came through faith, and he was flexible about the methods he employed. When he was forbidden to lay hands on audience members by the authorities in Sweden, he preached for a "corporate healing," by which people laid hands on themselves. He also practiced anointing with oil, and the distribution of prayer handkerchiefs. Wigglesworth sometimes attributed ill-health to demons. Wigglesworth claimed that God had healed him of appendicitis and much of his ministry was focused on faith healing. There were many miracles attributed to him, some reported in the popular press and in Pentecostal magazines such as 'Confidence' which had been founded by Boddy. Wigglesworth

avoided all medical treatment, despite suffering from kidney stones in his later years. These eventually passed naturally. He refused any surgical procedure, and stated that no knife would ever touch his body either in life or death.

What is it about the top tech product companies such as Amazon, Apple, Google, Netflix and Tesla that enables their record of consistent innovation? Most people think it 's because these companies are somehow able to find and attract a level of talent that makes this innovation possible. But the real advantage these companies have is not so much who they hire, but rather how they enable their people to work together to solve hard problems and create extraordinary products. As legendary Silicon Valley coach--and coach to the founders of several of today ' s leading tech companies--Bill Campbell

said, " Leadership is about recognizing that there's a greatness in everyone, and your job is to create an environment where that greatness can emerge. " The goal of EMPOWERED is to provide you, as a leader of product management, product design, or engineering, with everything you ' ll need to create just such an environment. As partners at The Silicon Valley Product Group, Marty Cagan and Chris Jones have long worked to reveal the best practices of the most consistently innovative companies in the world. A natural companion to the bestseller INSPIRED, EMPOWERED tackles head-on the reason why most companies fail to truly leverage the potential of their people to innovate: product leadership. The book covers: what it means to be an empowered product team, and how this is different from the " feature teams " used by most companies to build technology products recruiting and coaching the members of product teams, first to competence, and then to reach their potential creating an inspiring product vision along with an insights-driven product strategy translating that strategy into action by empowering teams with specific objectives—problems to solve—rather than features

to build redefining the relationship of the product teams to the rest of the company detailing the changes necessary to effectively and successfully transform your organization to truly empowered product teams EMPOWERED puts decades of lessons learned from the best leaders of the top technology companies in your hand as a guide. It shows you how to become the leader your team and company needs to not only survive but thrive.
