This book presents WHO guidelines for the protection of public health from risks due to a number of chemicals commonly present in indoor air. The substances considered in this review, i.e. benzene, carbon monoxide, formaldehyde, naphthalene, nitrogen dioxide, polycyclic aromatic hydrocarbons (especially benzo[a]pyrene), radon, trichloroethylene and tetrachloroethylene, have indoor sources, are known in respect of their hazardousness to health and are often found indoors in concentrations of health concern. The guidelines are targeted at public health professionals involved in preventing health risks of environmental exposures, as well as specialists and authorities involved in the design and use of buildings, indoor materials and products. They provide a scientific basis for legally enforceable standards.

The Child and Adult Care Food Program (CACFP) is a federally-funded program designed to provide healthy meals and snacks to children and adults while receiving day care at participating family day care homes, traditional child care centers, afterschool facilities, adult care facilities, and emergency shelters. CACFP has the broadest scope of any of the U.S. Department of Agriculture (USDA) food program, serving more than 3 million children and 114,000 adults across the nation. To receive reimbursement for the foods served, participating programs must abide by requirements set by the USDA. Child and Adult Care Food Program assesses the nutritional needs of the CACFP population based on Dietary Guidelines for Americans and the Dietary Reference Intakes (DRIs) and makes recommendations for revisions to the CACFP meal requirements. The book outlines meal requirements that include food specifications that could be used for specific meals and across a full day, covering all age groups from infants to older adults and meal patterns designed for use in a variety of settings, including in-home care and in large centers. By implementing these meal requirements, consumption of fruits, vegetables, and whole-grain rich foods will increase while consumption of solid fats, added sugars, and sodium will decrease. Not only will this address the high prevalence of childhood obesity, it will also help to achieve consistency with the standards and regulations of other USDA nutrition assistance programs, particularly the Supplemental Nutrition Program for Women, Infants, and Children (WIC), and the National School Lunch and School Breakfast programs. Child and Adult Care Food Program makes practical recommendations that would bring CACFP meals and snacks into alignment with current dietary guidance. The book will serve as a vital resource for federal and state public health officials, care providers working in child and adult day care facilities, WIC agencies, officials

working with the National School Lunch and School Breakfast programs, and other organizations serving at-risk populations.

Written by a practicing emergency physician, The White Coat Investor is a high-yield manual that specifically deals with the financial issues facing medical students, residents, physicians, dentists, and similar high-income professionals. Doctors are highly-educated and extensively trained at making difficult diagnoses and performing life saving procedures. However, they receive little to no training in business, personal finance, investing, insurance, taxes, estate planning, and asset protection. This book fills in the gaps and will teach you to use your high income to escape from your student loans, provide for your family, build wealth, and stop getting ripped off by unscrupulous financial professionals. Straight talk and clear explanations allow the book to be easily digested by a novice to the subject matter yet the book also contains advanced concepts specific to physicians you won't find in other financial books. This book will teach you how to: Graduate from medical school with as little debt as possible Escape from student loans within two to five years of residency graduation Purchase the right types and amounts of insurance Decide when to buy a house and how much to spend on it Learn to invest in a sensible, low-cost and effective manner with or without the assistance of an advisor Avoid investments which are designed to be sold, not bought Select advisors who give great service and advice at a fair price Become a millionaire within five to ten years of residency graduation Use a "Backdoor Roth IRA" and "Stealth IRA" to boost your retirement funds and decrease your taxes Protect your hard-won assets from professional and personal lawsuits Avoid estate taxes, avoid probate, and ensure your children and your money go where you want when you die Minimize your tax burden, keeping more of your hard-earned money Decide between an employee job and an independent contractor job Choose between sole proprietorship, Limited Liability Company, S Corporation, and C Corporation Take a look at the first pages of the book by clicking on the Look Inside feature Praise For The White Coat Investor "Much of my financial planning practice is helping doctors to correct mistakes that reading this book would have avoided in the first place." - Allan S. Taking a political economy of media approach, this book examines Amazon as a significant actor in the global media landscape. Amazon is mainly conceived in the popular consciousness and media commentary as a corporate body, selling products and services to individual consumers and organisations, but Brevini and Swiatek show that Amazon has become a communication giant that trades in diversified media (its own and others), and exerts a significant influence on global communication, especially through its online services. Further, the authors provide evidence of Amazon's multiple influences on politics, economics, and culture. With its comprehensive and critical overview, this book is ideal for students, scholars, and researchers of media and communication studies and political economy.

Alcohol use disorder (AUD) is a major public health problem in the United States. The estimated 12-month and lifetime prevalence values for AUD are 13.9% and 29.1%, respectively, with approximately half of individuals with lifetime AUD having a severe disorder. AUD and its sequelae also account for significant excess mortality and cost the United States more than $200 billion annually. Despite its high prevalence and numerous negative consequences, AUD remains undertreated. In fact, fewer than 1 in 10 individuals in the United States with a 12-month diagnosis of AUD receive any treatment. Nevertheless, effective and evidence-based interventions are available, and treatment is associated with reductions in the risk of relapse and AUD-associated mortality. The American Psychiatric Association Practice Guideline for the Pharmacological Treatment of Patients With Alcohol Use Disorder seeks to reduce these substantial psychosocial and public health consequences of AUD for millions of affected individuals. The guideline focuses specifically on evidence-based pharmacological treatments for AUD in outpatient settings and includes additional information on assessment and treatment planning, which are an integral part of using pharmacotherapy to treat AUD. In addition to reviewing the available evidence on the use of AUD pharmacotherapy, the guideline offers clear, concise, and actionable recommendation statements, each of which is given a rating that reflects the level of confidence that potential benefits of an intervention outweigh potential harms. The guideline provides guidance on implementing these recommendations into clinical practice, with the goal of improving quality of care and treatment outcomes of AUD.
