In the latest novel from the New York Times bestselling author of *Agony of the Leaves*, Indigo Tea Shop owner Theodosia Browning may always be a bridesmaid, never a bride, but this groom is never going to make it to the altar... Theodosia Browning's dear friend Delaine Dish has asked her to be a bridesmaid for her wedding. But when the big day arrives, everything seems to be going wrong. First, a massive storm is brewing over Charleston. A bad omen? Second, Delaine's sister is late for the ceremony. And finally, the groom not only has cold feet—his whole body is cold. A murderer has crashed the wedding. As Theodosia comforts a devastated Delaine, she needs to sort out the suspects on the groom's side from the suspects on the bride's side. One thing soon becomes apparent—revenge won't be the only dish served cold at this wedding. And if Theodosia doesn't watch her step, a cold-blooded killer may have a rude reception in store for her...

"At long last, a discussion of plagiarism that doesn't stop at 'Don't do it or else,' but does full justice to the intellectual interest of the topic!" ---Gerald Graff, author of *Clueless in Academe* and 2008 President, Modern Language Association This collection is a timely intervention in national debates about what constitutes original or plagiarized writing in the digital age. Somewhat ironically, the Internet makes it both easier to copy and easier to detect copying. The essays in this volume explore the complex issues of originality, imitation, and plagiarism, particularly as they concern students, scholars, professional writers, and readers, while also addressing a range of related issues, including copyright conventions and the ownership of original work, the appropriate dissemination of innovative ideas, and the authority and role of the writer/author. Throughout these essays, the contributors grapple with their desire to encourage and maintain free access to copyrighted material for noncommercial purposes while also respecting the reasonable desires of authors to maintain control over their own work. Both novice and experienced teachers of writing will learn from the contributors' practical suggestions about how to fashion unique assignments, teach about proper attribution, and increase students' involvement in their own writing. This is an anthology for anyone interested in how scholars and students can navigate the sea of intellectual information that characterizes the digital/information age. "Eisner and Vicinus have put together an impressive cast of contributors who cut through the war on plagiarism to examine key specificities that often get blurred by the rhetoric of slogans. It will be required reading not only for those concerned with plagiarism, but for the many more who think about what it means to be an author, a student, a scientist, or anyone who negotiates and renegotiates the meaning of originality and imitation in collaborative and information-intensive settings." ---Mario Biagioli, Professor of the History of Science, Harvard University, and coeditor of *Scientific Authorship: Credit and Intellectual Property in Science* "This is an important collection that addresses issues of great significance to teachers, to students, and to scholars across several disciplines. . . . These essays tackle their topics head-on in ways that are both accessible and provocative." ---Andrea Lunsford, Louise Hewlett Nixon Professor of English, Claude and Louise Rosenberg Jr. Fellow, and Director of the Program in Writing and Rhetoric at Stanford University and coauthor of *Singular Texts/Plural Authors: Perspectives on Collaborative Writing* digitalculturebooks is an imprint of the University

A collection of 300 multiple-choice questions which are divided into subject chapters corresponding with those in *General and Systematic Pathology*, a complementary text. However, full explanatory answers are supplied so that this book may be used with any pathology textbook. The questions take the form of a stem with five branches which must be marked true or false. This is the most commonly used system of questions in British medical schools and is usually scored as +1 for a correct response and zero for no response.

Peppa Plays Soccer Protecting Crops and the Environment Originality, Imitation, and Plagiarism Following the terrorist attacks of September 11, 2001, the Central Intelligence Agency embarked on a highly classified program of secret detention and extraordinary rendition of terrorist suspects. The program was designed to place detainee interrogations beyond the reach of law. Suspected terrorists were seized and secretly flown across national borders to be interrogated by foreign governments that used torture, or by the CIA itself in clandestine 'black sites' using torture techniques. This report is the most comprehensive account yet assembled of the human rights abuses associated with secret detention and extraordinary rendition operations. It details for the first time the number of known victims, and lists the foreign governments that participated in these operations. It shows that responsibility for the abuses lies not only with the United States but with dozens of foreign governments that were complicit. More than 10 years after the 2001 attacks, this report makes it unequivocally clear that the time has come for the United States and its partners to definitively repudiate these illegal practices and

secure accountability for the associated human rights abuses.

By their social and material context as markers of graves, dedications and public signs of honour, inscriptions offer a distinct perspective on the social lives, occupations, family belonging, mobility, ethnicity, religious affiliations, public honour and legal status of Roman women ranging from slaves and freedwomen to women of the elite and the imperial family, both in Rome and in Italian and provincial towns. They thus shed light on women who are largely overlooked by the literary sources. The wide range of inscriptions and graffiti included in this book show women participating not only in their families and households but also in the social and professional life of their cities. Moreover, they offer us a glimpse of women's own voices. Marital ideals and problems, love and hate, friendship, birth and bereavement, joy and hardship all figure in inscriptions, revealing some of the richness and variety of life in the

ancient world.

Every great dish has a center of gravity, a flavor or essence that pulls together other ingredients into a coherent and compelling whole. It's not necessarily the main ingredient but it is fundamentally what the dish is "about". Indian curry spices, fiery Thai chilis, lemony citrus, smoky barbecue rubs: these are all flavors we adore and get our taste buds asking for more. When we talk about wine or alcoholic drinks in any serious way, we talk about flavor too. Flavor is, quite simply, what makes us passionate about food and drink. At last, here is a cookbook that focuses on that fundamental concept. Organized around a dozen or more distinctive tastes, from spicy to citrus to salty to smoky to sweet to bitter and beyond, *The Flavor Principle* will feature more than 30 complete menus with complementary beverage pairings. Covering flavors from all over the world, this cookbook will be a journey around the globe. Modern and eclectic in approach, *The Flavour Principle* will appeal to a wide demographic of food and wine lovers. The publication of *A Matter of Taste* in 2005 set the tone for HarperCollins Canada's cookbook program; *The Flavour Principle* is meant not just as an update of that venerable publication, but will set a new bar for food and beverage pairing cookbooks.

The present volume consists of up-to-date review articles on topics relevant to psychology and law, and will be of current interest to the field. Notably, the majority of these topics are currently attracting a great deal of research and public policy attention in the U.S. and elsewhere, as evidenced by programs at the American Psychology-Law Society and related conferences. Topics for the present volume include: attitudes toward the police (Cole et al.), alibis (Charman et al.), hate crimes based on gender and sexual orientation (Plumm & Leighton), the role of gender at trial (Livingston et al.), neuroimages in court (Glen), intimate partner violence (Mauer & Reppucci), post-identification feedback (Douglass & Smalarz) and individual differences in eyewitness identification (Snowden & Bornstein), veterans' wellbeing (Berthelot & Prager), and plea bargaining (Levett).

Around the world, parties of the left and center-left have been struggling, losing ground to right-wing parties and various forms of reactionary populism. This book brings together a range of leading academics and experts on social democratic politics and policy to offer an international, comparative view of the changing political landscape. Using case studies from the United Kingdom, Germany, Spain, France, Australia and New Zealand contributors argue that despite different local and specific contexts, the mainstream center-left is beset by a range of common challenges. Analysis focuses on institutional and structural factors, the role of key individuals, and the atrophy of progressive ideas as interconnected reasons for the current struggles of the center-left.

The application of data warehousing and data mining techniques to computer security is an important emerging area, as information processing and internet accessibility costs decline

and more and more organizations become vulnerable to cyber attacks. These security breaches include attacks on single computers, computer networks, wireless networks, databases, or authentication compromises. This book describes data warehousing and data mining techniques that can be used to detect attacks. It is designed to be a useful handbook for practitioners and researchers in industry, and is also suitable as a text for advanced-level students in computer science.

Why the Left Loses Harper

In the wake of Hurricane Katrina, many questioned whether the large number of political appointees in the Federal Emergency Management Agency contributed to the agency's poor handling of the catastrophe, ultimately costing hundreds of lives and causing immeasurable pain and suffering. *The Politics of Presidential Appointments* examines in depth how and why presidents use political appointees and how their choices impact government performance--for better or worse. One way presidents can influence the permanent bureaucracy is by filling key posts with people who are sympathetic to their policy goals. But if the president's appointees lack competence and an agency fails in its mission--as with Katrina--the president is accused of employing his friends and allies to the detriment of the public. Through case studies and cutting-edge analysis, David Lewis takes a fascinating look at presidential appointments dating back to the 1960s to learn which jobs went to appointees, which agencies were more likely to have appointees, how the use of appointees varied by administration, and how it affected agency performance. He argues that presidents politicize even when it hurts performance--and often with support from Congress--because they need agencies to be responsive to presidential direction. He shows how agency missions and personnel--and whether they line up with the president's vision--determine which agencies presidents target with appointees, and he sheds new light on the important role patronage plays in appointment decisions.

This must-read for lovers of Stephen King's *The Shining* will leave readers breathless as Seda and her family find themselves at the mercy of a murderer in an isolated and snowbound hotel. Get ready for what Kirkus calls "A bloody, wonderfully creepy scare ride." When her mom inherits an old, crumbling mansion, Seda's almost excited to spend the summer there. The grounds are beautiful and it's fun to explore the sprawling house with its creepy rooms and secret passages. Except now her mom wants to renovate, rather than sell the estate—which means they're not going back to the city...or Seda's friends and school. As the days grow shorter, Seda is filled with dread. They're about to be cut off from the outside world, and she's not sure she can handle the solitude or the darkness it brings out in her. Then a group of teens get stranded near the mansion during a blizzard. Seda has no choice but to offer them shelter, even though she knows danger lurks in the dilapidated mansion—and in herself. And as the snow continues to fall, what Seda fears most is about to become her reality...
