This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting

armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Dale Earnhardt Jr.'s only authorized book revealing the inside track on his final year of racing and retirement from the driver's seat. "Time was running out on my charade... My secrets were about to be exposed to the world." It was a seemingly minor crash at Michigan International Speedway in June 2016 that ended the day early for Dale Earnhardt Jr. What he didn't know was that it would also end his driving for the year. He'd dealt with concussions before, but concussions are like snowflakes, no two are the same. And recovery can be brutal, and lengthy. When NASCAR star Dale Earnhardt Jr. retired from professional stock car racing in 2017, he walked away from his

career as a healthy man. But for years, he had worried that the worsening effects of multiple racing-related concussions would end not only his time on the track but his ability to live a full and happy life. Torn between a race-at-all-costs culture and the fear that something was terribly wrong, Earnhardt tried to pretend that everything was fine, but the private notes about his escalating symptoms that he kept on his phone reveal a vicious cycle: suffering injuries on Sunday, struggling through the week, then recovering in time to race again the following weekend. For the first time, he shares these notes and fully reveals the physical and emotional struggles he faced as he fought to close out his career on his own terms. In this candid reflection, Earnhardt opens up about his frustration with the slow recovery, his admiration for the woman who stood by him through it all, and his determination to share his own experience so that others don't have to suffer in silence. Steering his way to the final checkered flag of his storied career proved to be the most challenging race and most rewarding finish of his life.

"In order to highlight this "child-centred" approach, the authors studied the way children tackle the particular problems posed by limitations of income. How do children learn (a) the relationship between choices available in the present and the future, (b) to spread their limited financial resources over time into the

future and (c) about the strategies, such as banking, that allow them to protect those resources from threats and temptations? In short, how do children learn to save?" "This volume goes some way to answering these and related questions and in so doing sets up an alternative framework for the study of the emergence of economic awareness. In addition, commentaries by Anna E. Berti (Chapter 7) and Sharone L. Maital and Shlomo Maital (Chapter 8) explore these issues further." --BOOK JACKET.

Comics historian Dr. Michael J. Vassallo has chosen the best of the best, many of which are coming back into print for the first time, from sixteen different Atlas war titles and featuring the artwork of twenty different artists--giants of the genre, including Russ Heath, John Severin, Bernie Krigstein, Joe Maneely, Jerry Robinson, Steve Ditko, and Jack Kirby.

Each page has been meticulously restored from its first printing by comic art restorer Allan Harvey. Atlas at War! covers the brutal pre-code period where graphic depictions of war action were rendered by artists who were World War II veterans themselves, as well as the post-code period, where code restrictions forced creators to tell stories without graphic violence but produced some of the most beautiful comic art of the genre. In addition to the artists, stories cover all aspects of war--from famous campaigns, weaponry, and personal soldier stories to political topics, Nazi atrocities, and even one story tinged with pre-code horror! Often overlooked in favor of its competitors, Atlas at War! will finally show that Atlas' war titles were second to no one. Computer-Related Risks CUP Archive

Unlikely couples, matchmakers, and moral dilemmas are the heart of the Best Intention series, a collection of novellas set in a business environment where negotiations and deals turn personal... The Sweetest Deal is Book One in this series. Ian Woodford is about to close the most important business transaction of his life and realize his father's dream—all he has to do is agree to one request: give the man who's controlling the deal a grandchild. The proposition is every level of wrong, but an arrangement like this would honor his father's

memory, and while Ian can never replace the child he lost, it would give him an opportunity for another child, this time without the encumbrance of a wife. But the more time he spends with C.C., the more he realizes he wants her for more than a way to get a deal and a child... C.C. aka Catherine Crowell gave up on dreams of a family after Mr. Worse-Than-Wrong broke her heart. Hiding behind spreadsheets, and oversized suits, she's determined to show her business-mogul father she's capable of taking over his company and won't be fooled by smooth talking liars again. Her work has become her life, and while she'd love a child, that's not going to happen. When Ian Woodford, the company's newest business partner, shows interest in her, C.C.'s more than a little suspicious, and determined to find out if his intentions are real, and what she plans to do about it if they are...or aren't. It's going to get messy and once the truth come out, as it always does, it's going to take more than one matchmaker to get the sweetest deal. WINNER OF THE
DAYTON LITERARY
PEACE PRIZE A letter from a German soldier to his grandson recounts the terrors of war on the Eastern Front, and a postwar ordinary life in

search of atonement, in this "raw, visceral, and propulsive" novel (New York Times Book Review). A New York Times Book Review Editors' Choice In the throes of the Second World War, young Meissner, a college student with dreams of becoming a scientist, is drafted into the German army and sent to the Eastern Front. But soon his regiment collapses in the face of the onslaught of the Red Army, hell-bent on revenge in its race to Berlin. Many decades later, now an old man reckoning with his past, Meissner pens a letter to his grandson explaining his actions, his guilt as a Nazi participator, and the difficulty of life after war. Found among his effects after his death, the letter is at once a thrilling story of adventure and a questing rumination on the moral ambiguity of war. In his years spent fighting the Russians and attempting afterward to survive the Gulag, Meissner recounts a life lived in perseverance and atonement. Wracked with shame—both for himself and for Germany—the grandfather explains his dark rationale, exults in the courage of others, and blurs the boundaries of right and wrong. We Germans complicates our most steadfast beliefs and seeks to account for the complicity of an entire country in the perpetration of heinous acts. In this breathless and page-turning story,

Alexander Starritt also presents us with a deft exploration of the moral contradictions inherent in saving one's own life at the cost of the lives of others and asks whether we can ever truly atone.
