High-quality residential structures are much more than merely a series of different floor plans. First and foremost, the urban apartment house mediates between the private refuge and the public space of the city. In the process, boundaries between inside and outside are negotiated on a wide variety of scales. Housing+ focuses on investigating spatial and architectural as well as social and communicative interfaces in residential construction. The publication is divided into four chapters: Urban Planning, The Ground Floor, Building Structure, and Facade to which sixty-seven international projects are assigned. These four thematic focuses are

discussed comprehensively in the essays that introduce the chapters, and the individual projects are analyzed in brief under these same aspects. Comparable plans drawn especially for this book supplement the typological descriptions. The broad spectrum of projects selected covers urban apartment block construction from towers, block structures, row houses, and gaps between buildings, to housing complexes in outlying urban areas."

This volume presents for the first time an in-depth portrait of BMW's workshop of ideas and describes the concern's multi-faceted concept for sustainable and visionary mobility and even autonomous driving. Superb close-ups and design drawings introduce all models from the BMW i3 and the BMW i8 to the BMW i Vision Dynamics." --Back cover

The Last Mermaid Birkhauser

This article profiles economist David Card, whose work on minimum wages, immigration, and education challenged conventional wisdom. Card rose to prominence in 1995 when he won the coveted John Bates Clark Medal, then

awarded every two years by the American Economic Association to the leading economist under the age of 40 who is working in the United States. It is considered the top award in economics barring the Nobel Prize. Through empirical research into a series of "natural experiments" —real-life situations underpinned by robust data—Card challenged conventional economic thinking in several important areas. He found that, unlike in classical models, raising the minimum wage does not necessarily increase unemployment, and even has the potential to reduce it. More than 15 years of research led to a landmark 1993 paper and subsequent book—coauthored with Princeton professor Alan B. Krueger—that analyzed the impact of the minimum wage on the New Jersey fast-food industry.

Adrift for years since her partner's death and her son's estrangement, Lenny Barclay isn't sure what she wants. Her friends despair of cheering her up. Even making her mayor of their idyllic Colorado mountain town doesn't awaken the joyous, passionate Lenny they once knew. But the arrival of the corporate planners from the Wilderness Campaign brings back some of Lenny's fire. They already act like they own the place, including the arrogant Sloane McHenry.

Pinedale—and her fractured family—does not need a Fortune 500 fix. Sloane is always hunting for the complete package and she's got it in Pinedale. The mayor is a spineless pushover, the site only holds a dilapidated shop owned by the aforementioned mayor and Sloane has a secret weapon that will prove useful should she meet resistance. This project's not just about profit, either, for reasons she can't explain—not even to herself.

Gross is back and viler than ever! From the author of Oh, Yuck! the perennial bestseller about science with over 610,000 copies in print, comes OH, YIKES!, an illustrated encyclopedia of history 's messiest, dumbest, grossest, wackiest, and weirdest moments. If kids think pus and gas are fun, wait until they hear the lowdown on the real Dracula, samurai, gladiators, guillotines and vomitoriums, pirates, Vikings, witch trials, and the world 's poxiest plagues. Impeccably researched, deliciously wry, and subversively educational (check out the toilet-paper timeline), OH, YIKES! covers people, events, institutions, and really bad ideas, alphabetically from April Fool 's Day to zany Zoos. Here are the Aztecs, sacrificing 250,000 people a year for the gods—and for food.

Fearsome Attila the Hun, scourge of the steppes whose spinning eyes terrified his friends and whose mastery of horses terrorized his enemies (how does someone so evil die? Nosebleed!). Saur, the 11th-century dog-king of Norway (and not too bad as kings go). Henry VIII and his marital problems, the story of the Abominable Snowman and the Loch Ness Monster, why sailors in the old days preferred eating in the dark (hint: you can 't see what 's crawling in your food), and the answer to the question, " How did knights in armor go to the bathroom? " Topped off with hundreds of illustrations and photographs along with hands-on activities that bring the past to life, OH, YIKES! puts the juice in history in a way that makes it irresistible.

A champion racer and professional stunt driver reveals the secrets of peak performance in any

endeavor. Optimum Drive is the complete step-by-step guide to maximizing human performance. As a professional racing driver and a driving coach for over twenty years, Paul F. Gerrard gives you his unique perspective on what causes people to stagnate with the idea of being merely good, when each of us has the potential to be great. Gerrard believes that peak performance is within our grasp. Gerrard helps you understand the mental toughness that it takes to reach that greatness. He starts off by taking you onto the track as he explores what driving at 200 mph can teach us about who we are. Using his experiences from behind the wheel at death-defying speeds, Gerrard breaks down the psychology of driving, what it takes, and how we can use it to achieve greatness in life. The key, he says, is the nirvana-like sensation of flow psychology, or being in the zone—a mental state in which one who is performing an activity is fully immersed in a feeling of energized focus, full involvement, and joy. It is through flow psychology that Gerrard introduces a blend of holistic mindset

combined with a competitive edge, which is essential to successful professional driving. This mix of guts, tenacity, and endurance is the foundation of Gerrard's philosophy for attaining greatness—and can be put to work for you too, on or off the track.

Fill It With Regular is a new collection of poetry from the author, and artist, Robert Benefiel. The poems included in this tome were all written when the author began to normalize his life after a long battle of depression. Looking not to candy coat life, but to derive his own meaning for living from it, this book looks for the joy possible while reasoning out the sometimes unsettling realities that can accompany any life no matter what the station or circumstances. Whether straight

forward or surreal, derived from a past moment or a moment that never happened, the poems offer the reader a steady look at a person salvaging joy from the wreckage of existence.

Shana Ab é has entranced countless readers with her passion-filled novels of adventure, intrigue, and romance. Now the author of *The Secret Swan* delivers a gift from the sea: three hauntingly beautiful tales connected by a legend, a locket, and a love beyond time. 531 a.d.: The tiny island of Kell is said to be enchanted, inhabited by an extraordinary creature who comforts shipwrecked sailors passing into the next world. Prince Aedan of the Isles believes in no such nonsense—until he awakens on Kell itself and meets the sensuous siren who rescued him from the sea. 1721: Ronan MacMhuirich, Earl of Kell, is the target of an unlikely assassin: Leila, a mysterious woman from an exotic land. But his irresistibly beautiful would-be slayer is in just as much danger as Ronan when she falls for this man with a magic of his

own. 2004: What do you do when you inherit a Scottish island you never knew existed—and find yourself pursued by a handsome stranger who wants to buy it from you? That ’ s what happens to Ruri Kell when she accepts Iain MacInnes ’ s invitation to visit her birthright, and listens to a proposition as sinfully tempting as everything else about him. Three seductive love stories, three passionate couples, all linked by one of the most romantic myths of all. *The Original Lotus Elite Racing Car for the Road* In this enhanced digital edition of *The MELT Method*, Sue Hitzmann shows you how to live without pain, illustrating her MELT techniques with 20 instructional videos plus 10 audio clips, so you can listen hands-free while you start your journey toward a pain-free body. In *The MELT Method*, therapist Sue Hitzmann offers a breakthrough self-treatment system to combat chronic pain and erase the effects of aging and active living—in as little as ten minutes a day. With a focus on the body's connective tissues and the role they play in pain, stress, weight gain, and

overall health, Hitzmann's life-changing program features techniques that can be done in your own home. A nationally known manual therapist and educator, Hitzmann helps her clients find relief from pain and suffering by taking advantage of the body's natural restorative properties. The MELT Method shows you how to eliminate pain, no matter what the cause, and embrace a happier, healthier lifestyle.

BMW in the USA, 1938-'75

Tells the early history of BMW in the USA, starting with the first privately-imported cars in 1938 and the sports cars brought back by returning US service members in the 1940s and '50s. Also covers the first official imports by Max Hoffman and Fred Oppenheimer (Fadex) in the 1950s, with emphasis on the business dealings behind the scenes in Munich and New York. Includes detailed account of how BMW terminated its contract with Hoffman to establish BMW of North America in 1975. Also features information about the racers who campaigned BMW's cars in sports car races from the

1930s through the 1970s, providing invaluable marketing for the brand.
