A Time Best YA Book of All Time (2021) In this "searing work of historical fiction" (Booklist), Coretta Scott King Award-winning author Sharon M. Draper tells the epic story of a young girl torn from her African village, sold into slavery, and stripped of everything she has ever known—except hope. Amari's life was once perfect. Engaged to the handsomest man in her tribe, adored by her family, and fortunate enough to live in a beautiful village, it never occurred to her that it could all be taken away in an instant. But that was what happened when her village was invaded by slave traders. Her family was brutally murdered as she was dragged away to a slave ship and sent to be sold in the Carolinas. There she was bought by a plantation owner and given to his son as a "birthday present". Now, survival is all Amari can dream about. As she struggles to hold on to her memories, she also begins to learn English and make friends with a white indentured servant named Molly. When an opportunity to escape presents itself, Amari and Molly seize it, fleeing South to the Spanish colony in Florida at Fort Mose. Along the way, their strength is tested like never before as they struggle against hunger, cold, wild animals, hurricanes, and people eager to turn them in for reward money. The hope of a new life is all that keeps them going, but Florida feels so far away and sometimes Amari wonders how far hopes and dreams can really take her.

The B Format release of last year's bestseller. Upon hearing that his nephew had chosen to enter politics, Uncle Mungo decided to impart his advice on how to succeed in politics, from choice of party through media manipulation and backstabbing, to elevation to the prime ministership. Illustrated by plentiful examples drawn from a lifetime's close observation of Australian politics, (particularly the Hawke-Keating-Howard years), Mungo's tongue-in-cheek advice throughout is by turn wise and cynical, and always very funny. How to be a Megalomaniac: Advice to a Young Politician is enlivened by specially commissioned cartoons from Patrick Cook.

"I come from a political family. This is less of a boast than an admission. While a trace of convict or aboriginal ancestry that was once a matter for shame and concealment is now considered rather chic, politicians remain the pits." When Mungo MacCallum moved to Canberra in 1967, he was immediately caught up in the maelstrom of political activity which was sweeping Australia. Already a satirical political journalist of repute, he went to Canberra to see what was happening. There he became one of the most influential and wittiest political chroniclers of the Whitlam years, writing entertaining material on the facts, analyses and anecdotes of the political animals who inhabit Parliament House.

Ten thousand years ago, our species made a radical shift in its way of life: We became farmers rather than hunter-gatherers. Although this decision propelled us into the modern world, renowned geneticist and anthropologist Spencer Wells demonstrates that such a dramatic change in lifestyle had a downside that we're only now beginning to recognize.

Growing grain crops ultimately made humans more sedentary and unhealthy and made the planet more crowded. The expanding population and the need to apportion limited resources created hierarchies and inequalities. Freedom of movement was replaced by a pressure to work that is the forebear of the anxiety millions feel today. Spencer Wells offers a hopeful prescription for altering a life to which we were always ill-suited. Pandora's Seed is an eye-opening book for anyone fascinated by the past and concerned about the future. *BMW 3 Series (E90, E91, E92, E93) Service Manual* Ivan R. Dee

At first it may seem that it is a game that you play with forces outside yourself—the economies of the market place so to speak—but as you proceed you discover it is actually a game you play with yourself. Stuart Wilde's money book, his fifth work, deals with the E.S.P. of easy money and the art of being in the right place at the right time, with the right idea and the right attitude. Scholars, journalists, and publishers have turned their brains inside out in the effort to predict what lies ahead, but who better to comment on the future of the book than those who are driven to write them? The way we absorb information has changed dramatically. Edison's phonograph has been reincarnated as the iPod. Celluloid went digital. But books, for the most part, have remained the same—until now. And while music and movies have undergone an almost Darwinian evolution, the literary world now faces a revolution, a sudden change in the way we buy, produce, and read books. In The Late American Novel, Jeff Martin and C. Max Magee gather some of today's finest writers to consider the sea change that is upon them. Lauren Groff imagines an array of fantastical futures for writers, from poets with groupies to novelists as vending machines. Rivka Galchen writes about the figurative and literal death of paper. Joe Meno expounds upon the idea of a book as a place set permanently aside for the imagination, regardless of format. These and other original essays by Reif Larsen, Benjamin Kunkel, Victoria Patterson, and many more provide a timely and much-needed commentary on this compelling cultural crossroad.

False charges of racial profiling threaten to obliterate the crime-fighting gains of the last decade, especially in America's inner cities. This is the message of Heather Mac Donald's new book, in which she brings her special brand of tough and honest journalism to the current war against the police. The anti-profiling crusade, she charges, thrives on an ignorance of policing and a willful blindness to the demographics of crime. In careful reports from New York and other major cities across the country, Ms. Mac Donald investigates the workings of the police, the controversy over racial profiling, and the anti-profiling lobby's harmful effects on black Americans. The reduction in urban crime, one of the nation's signal policy successes of the 1990s, has benefited black communities even more dramatically than white neighborhoods, she shows. By policing inner cities actively after long neglect, cops have allowed business and civil society to flourish there once more. But attacks on police, centering on false charges of police racism and racial profiling, and spearheaded by activists, the press, and even the Justice Department, have slowed the success and threaten to reverse it. Ms. Mac Donald looks at the reality behind the allegations and writes about the black cops you never heard about, the press coverage of policing, and policing strategies across the country. Her iconoclastic findings demolish the prevailing anti-cop orthodoxy.
