Public Safety Dispatcher (California Highway Patrol) Career Examination

False charges of racial profiling threaten to obliterate the crime-fighting gains of the last decade, especially in America's inner cities. This is the message of Heather Mac Donald's new book, in which she brings her special brand of tough and honest journalism to the current war against the police. The anti-profiling crusade, she charges, thrives on an ignorance of policing and a willful blindness to the demographics of crime. In careful reports from New York and other major cities across the country, Ms. Mac Donald investigates the workings of the police, the controversy over racial profiling, and the anti-profiling lobby's harmful effects on black Americans. The reduction in urban crime, one of the nation's signal policy successes of the 1990s, has benefited black communities even more dramatically than white neighborhoods, she shows. By policing inner cities actively after long neglect, cops have allowed business and civil society to flourish there once more. But attacks on police, centering on false charges of police racism and racial profiling, and spearheaded by activists, the press, and even the Justice Department, have slowed the success and threaten to reverse it. Ms. Mac Donald looks at the reality behind the allegations and writes about the black cops you never heard about, the press coverage of policing, and policing strategies across the country. Her iconoclastic findings demolish the prevailing anti-cop orthodoxy.

Real leadership that leads to high engagement, higher performance, and a culture of accountability As president and CEO of Scripps Health, one of America's most prestigious health systems, Chris Van Gorder presided over a dramatic turnaround, catapulting Scripps from near bankruptcy to a dominant market position. While hospitals and health systems nationwide have laid people off or are closing their doors, Scripps is financially healthy, has added thousands of employees (even with a no-layoff philosophy), and has developed a reputation as a top employer. What are the secrets to this remarkable story? In *The Front-Line Leader*, Chris Van

Gorder candidly shares his own incredible story, from police officer to CEO, and the leadership philosophy that drives all of his decisions and actions: people come first. Van Gorder began his unlikely career as a California police officer, which deeply instilled in him a sense of social responsibility, honesty, and public service. After being injured on the job and taking an early retirement, Van Gorder had to reinvent himself, taking a job as a hospital security director, a job that would change his life. Through hard work and determination, he rose to executive ranks, eventually becoming CEO of Scripps. But he never forgot his own roots and powerful work ethic, or the time when he was a security officer and a CEO would not make eye contact with him. Van Gorder leads from the front lines, making it a priority to know his employees and customers at every level. His values learned on the force—protecting the community, educating citizens, developing caring relationships, and ultimately doing the right thing—shape his approach to business. As much as companies talk about accountability, managers seldom understand what practical steps to take to achieve an ethic of service that makes accountability meaningful. The Front-Line Leader outlines specific tactics and steps anyone can use starting today to take responsibility, inspire others, and achieve breakout results for their organizations. Van Gorder reveals how a no-layoff philosophy led to higher accountability, how his own attention to seemingly minor details spurred larger change, and how his own high standards for himself and his team improved morale and productivity. From general strategy to the tiny, everyday steps leaders can take to create the kind of culture and accountability that translates into major competitive advantage, *The Front-Line Leader* charts a path to better leadership and a more engaged, higher-performing organization.

The Complete Package Ivan R. Dee
Scholars, journalists, and publishers have turned their brains inside out in the effort to predict what lies ahead, but who better to comment on the future of the book than those who are driven to write them? The way we absorb information has changed dramatically. Edison's phonograph has been reincarnated as the iPod. Celluloid went digital. But books, for the most part, have remained the same—until now. And while music and movies have undergone an almost Darwinian evolution, the literary world now faces a revolution, a sudden change in the way we buy, produce, and read books. In *The Late American Novel*, Jeff Martin and C. Max Magee gather some of

today's finest writers to consider the sea change that is upon them. Lauren Groff imagines an array of fantastical futures for writers, from poets with groupies to novelists as vending machines. Rivka Galchen writes about the figurative and literal death of paper. Joe Meno expounds upon the idea of a book as a place set permanently aside for the imagination, regardless of format. These and other original essays by Reif Larsen, Benjamin Kunkel, Victoria Patterson, and many more provide a timely and much-needed commentary on this compelling cultural crossroad.

This is a greatly expanded, updated new edition of Mungo's 1994 book of political anecdotes. He has trawled the work of our leading political observers to collect the gems, spiced the dish with his own wit, and produced an alternative political history of Australia, a lot funnier than the other one. 'Mungo has selected well. There is something for everybody—those addicted to politics, those seeking an insight into the Australian ethos and psyche, and those who just want a good laugh.' Barry Cohen
Extract: When Queensland police minister Russ Hinze, an advocate of castration for sex offenders, was asked on television what he'd do if the wrong man was punished, he displayed the can-do approach of the 1970s. 'We'd just sew him on a bigger and better one!'

"I come from a political family. This is less of a boast than an admission. While a trace of convict or aboriginal ancestry that was once a matter for shame and concealment is now considered rather chic, politicians remain the pits." When Mungo MacCallum moved to Canberra in 1967, he was immediately caught up in the maelstrom of political activity which was sweeping Australia. Already a satirical political journalist of repute, he went to Canberra to see what was happening. There he became one of the most influential and wittiest political chroniclers of the Whitlam years, writing entertaining material on the facts, analyses and anecdotes of the political animals who inhabit Parliament House.

The Belonging Project is a longitudinal learning and teaching research project seeking to develop and define a new approach to enhancing student engagement and graduate outcomes in the School of Media and Communications RMIT University.
