In this literary tale of the Old West, Anton and Nicky

Ibarra flee the Basque

Country of Spain to serve as apprentices on an Idaho

sheep ranch. They run up against a cunning, ruthless

cattle baron named Faro Sinclair who thinks nothing

of slaughtering herders and stock on the rangeland.

"Sons of the Dawn is a page-turner, and author Hank

Nuwer is to be thanked for enriching our sense of the

West with this memorable novel." -Gerald Haslam,

author of Okies and Hawk Flights, Visions of the West

"Expertly researched with the stunning detail that

marks the vast body of nonfiction for which Nuwer is known, this is a richly rewarding, old-fashioned historical novel, one that

with artistry and skill is made topical." -Gary Eller, author

of Thin Ice and Other Risks

"The Basques' lives weren't easy in either the Old World

or the new, but Nuwer's compelling novel leavens

those hard facts with flashes of humor from his well-

drawn characters. Anton and Nicky, along with a herder

named Tubal, who very nearly steals the show, are

wonderful company on this fast-paced ride." - Gwen

Florio, author of Montana The Everything Car Care

Award-winning journalist Gerard Colby takes readers

behind the scenes of one of America ' s most powerful

and enduring corporations;

---

now with a new introduction by the author. Their name is everywhere. America's wealthiest industrial family by far and a vast financial power, the Du Ponts, from their mansions in northern Delaware's "Chateau Country," have long been leaders in the relentless drive to turn the United States into a plutocracy. The Du Pont story in this country began in 1800. Éleuthère Iréné du Pont, official keeper of the gunpowder of corrupt King Louis XVI, fled from revolutionary France to America. Two years later he founded the gunpowder company that called itself "America's armorer"—and that President Wilson's secretary of war called a "species of outlaws" for war profiteering. Du Pont Dynasty introduces many

colorful characters, including "General" Henry du Pont, who profited from the Civil War to build the Gunpowder Trust, one of the first corporate monopolies; Alfred I. du Pont, betrayed by his cousins and pushed out of the organization, landing in social exile as the powerful "Count of Florida"; the three brothers who expanded Du Pont's control to General Motors, fought autoworkers' right to unionize, and then launched a family tradition of waging campaigns to destroy FDR's New Deal regulatory reforms; Governor Pete du Pont, who ran for president and backed Newt Gingrich's 1994 Republican Revolution; and Irving S. Shapiro, the architect of Du Pont's ongoing campaign to

---

undermine effective environmental regulation. From plans to force President Roosevelt from office, to munitions sales to warlords and the rising Nazis, to Freon 's damage to the planet 's life-protecting ozone layer, to the manufacture of deadly gases and the covered-up poisoning of Du Pont workers, to the reputation the company earned for being the worst polluter of America 's air and water, the Du Pont reign has been dappled with scandal for centuries. Culled from years of painstaking research and interviews, this fully documented book unfolds like a novel. Laying bare the bitter feuds, power plays, smokescreens, and careless unaccountability that erupted in murder, Colby pulls back the curtain on a

dynasty whose formidable influence continues to this day. Suppressed in myriad ways and the subject of the author 's landmark federal lawsuit, Du Pont Dynasty is an essential history of the United States.

I'm sad because my best friend has moved away. I'm mad because people at school call me gay, when I'm not. I'm glad to have made a new friend, a transfer student from America called Luke. And I'm confused because he's quickly becoming the most important person in my life. I'm Taylor Brooks-Brown, and these are the problems I'm having.Full disclosure: 'Problems I'm Having' is a coming of age story about the curious attraction between two boys and should not be read by anyone who is ofended by this.

publication to explore the output of Matt Keegan, the New York-based artist known for his work across mediums, as well as independent publishing including the acclaimed editioned art journal North Drive Press. This monograph expands on a recent solo exhibition by the artist at Rogaland Kunstsenter; Stavanger, Norway, titled "Portable Document Format." The show was organized as an idiosyncratic retrospective, with Keegan remaking sculptures dating from 2006 to 2015, initially fabricated in Sheetrock and steel, in cardboard. Like the exhibition, the publication serves both as a project and a reference for the artist's work. Essays by Tom McDonough and John Miller theorize Keegan's production, while interviews with Sara VanDerBeek and Anna Craycroft underscore the artist's ongoing engagement with his peer group. Furthered

by contributions from colleagues Uri Aran, Leslie Hewitt and James Richards, situated alongside full-color installation photos and reproductions of work from the past decade, Matt Keegan: OR provides a solid introduction and layered overview of the artist's multifarious practice. Your Helpful Friend Automobile Quarterly How to Rebuild and Modify High-Performance Manual Transmissions breaks down the disassembly, inspection, modification / upgrade, and rebuilding process into detailed yet easy-to-follow steps consistent with our other Workbench series books. The latest techniques and insider tips are revealed, so an enthusiast can quickly perform a tear-down, identify worn parts, select the best components, and successfully assemble a high-performance transmission.

---

Transmission expert and designer Paul Cangialosi shares his proven rebuilding methods, insight, and 27 years of knowledge in the transmission industry. He guides you through the rebuilding process for most major high-performance transmissions, including BorgWarner T10 and super T10, GM/Muncie, Ford Toploader, and Tremec T5. This new edition also contains a complete step-by-step rebuild of the Chrysler A833 transmission.

With more than 5,000 photos and histories of cars and their companies written by one of America's most respected automotive historians, this is the most extensive automobile reference available.

Ward's Automotive Yearbook 2005 Zondervan

The primary purpose of the Manual of Classification of Motor Vehicle Traffic Accidents is to promote uniformity and comparability of motor vehicle traffic accident statistics now being

developed in Federal, state and local jurisdictions. This manual is divided into two sections, one containing definitions and one containing classification instructions.

Making It Count John Wiley & Sons

Tahiti Nui is an account of the survival of a Polynesian society in the face of successive settlements of missionaries, traders, and administrators. Beginning with the first explorers and Captain Cook's scientific observations at Point Venus, Dr. Newbury has separated the various strands interwoven in the fabric of Tahitian society, tracing their development and showing how they interacted at successive stages. Missionaries and foreign traders, administrators and Polynesians, planters and immigrant Chinese have all contributed to the distinctive flavor of French Polynesia, with Tahiti and Tahitians

---

becoming increasingly dominant, not just as the focus of the French administration in Pape'ete, but in the social networks and trading patterns that have evolved.

Open Road Media

Auto Repair For Dummies, 2nd Edition (9781119543619)

was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026).

While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated. Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new

or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an

---

acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs. The Buick John Wiley & Sons The Muncie 4-speeds, M20, M21, and M22 are some of the most popular manual transmissions ever made and continue to be incredibly popular. The Muncie was the top high-performance manual transmission GM offered in its muscle cars of the 60s and early 70s. It was installed in the Camaro, Chevelle, Buick GS, Pontiac GTO, Olds Cutlass, and many other classic cars. Many owners want to retain the original transmission in their classic cars to maintain its value. Transmission expert and veteran author Paul Cangialosi has created an indispensable reference to Muncie 4-speeds that guides you through each crucial stage of the rebuild process. Comprehensive ID information is provided, so you

can positively identify the cases, shafts, and related parts. It discusses available models, parts options, and gearbox cases. Most important, it shows how to completely disassemble the gearbox, identify wear and damage, select the best parts, and complete the rebuild. It also explains how to choose the ideal gear ratio for a particular application. Various high-performance and racing setups are also shown, including essential modifications, gun drilling the shafts, cutting down the gears to remove weight, and achieving race-specific clearances. Muncie 4-speeds need rebuilding after many miles of service and extreme use. In addition, when a muscle car owner builds a high-performance engine that far exceeds stock horsepower, a stronger high-performance transmission must be built to accommodate this torque and horsepower increase. No other book goes into this much detail on the identification of the Muncie 4-speed, available parts, selection of gear ratios, and the rebuild process.

Sons of the Dawn CarTech Inc  
The Rochester Quadrajet carburetor was found perched atop the engine of many a classic GM performance vehicle. The Q-Jet is a very capable but often misunderstood carb. This book, *How to Rebuild and Modify Rochester Quadrajet Carburetors*, seeks to lift the veil of mystery surrounding the Q-Jet and show owners how to tune and modify their carbs for maximum performance. The book will be a complete guide to selecting, rebuilding, and modifying the Q-Jet, aimed at both muscle car restorers and racers. The book includes a history of the Q-Jet, an explanation of how the carb works, a guide to selecting and finding the right carb, instructions on how to rebuild the carb, and extensive descriptions of high-performance modifications that will help anyone with a Q-Jet carb crush the competition.

Sterling Publishing Company, Inc.  
As part of its BMW H2R research project, Studio Olafur Eliasson presents extensive visual material; excerpts from two seminars held in 2006/07; and conversations between designers and theorists. Finally, the 'climate car' consists of a car with a surface of layers of ice which has to be at -6 degrees Celsius. Technology and steel industry competitiveness  
In brief vignettes, historian Axelrod pinpoints and investigates the make-or-break event in the lives and careers of some of history's most significant figures. Axelrod reexamines history by answering the fascinating question of why the people who made history made their choices--and conveys the resonance of those choices today. The 46 profiles range from ancient times to the present day and include Cleopatra's decision to rescue Egypt; Washington's

---

decision to cross the Delaware and win; Gandhi's decision to prevail against the British Empire without bloodshed; Truman's decision to drop the A-bomb and end WW II; Rosa Parks' decision to sit in for civil rights; Boris Yeltsin's decision to embrace a new world order; and Flight 93's decision to take a stand against terror.--From publisher description.
